Schedule problems affected many students at the beginning of this year. Gail Tighe attempts to clear her problem up with Mr. Lehman's help.

Study is a part of every student's life, even number two ranked Rosalinda Trubow has to crack the books.

Sherri Voland seems to do more talking than typing.

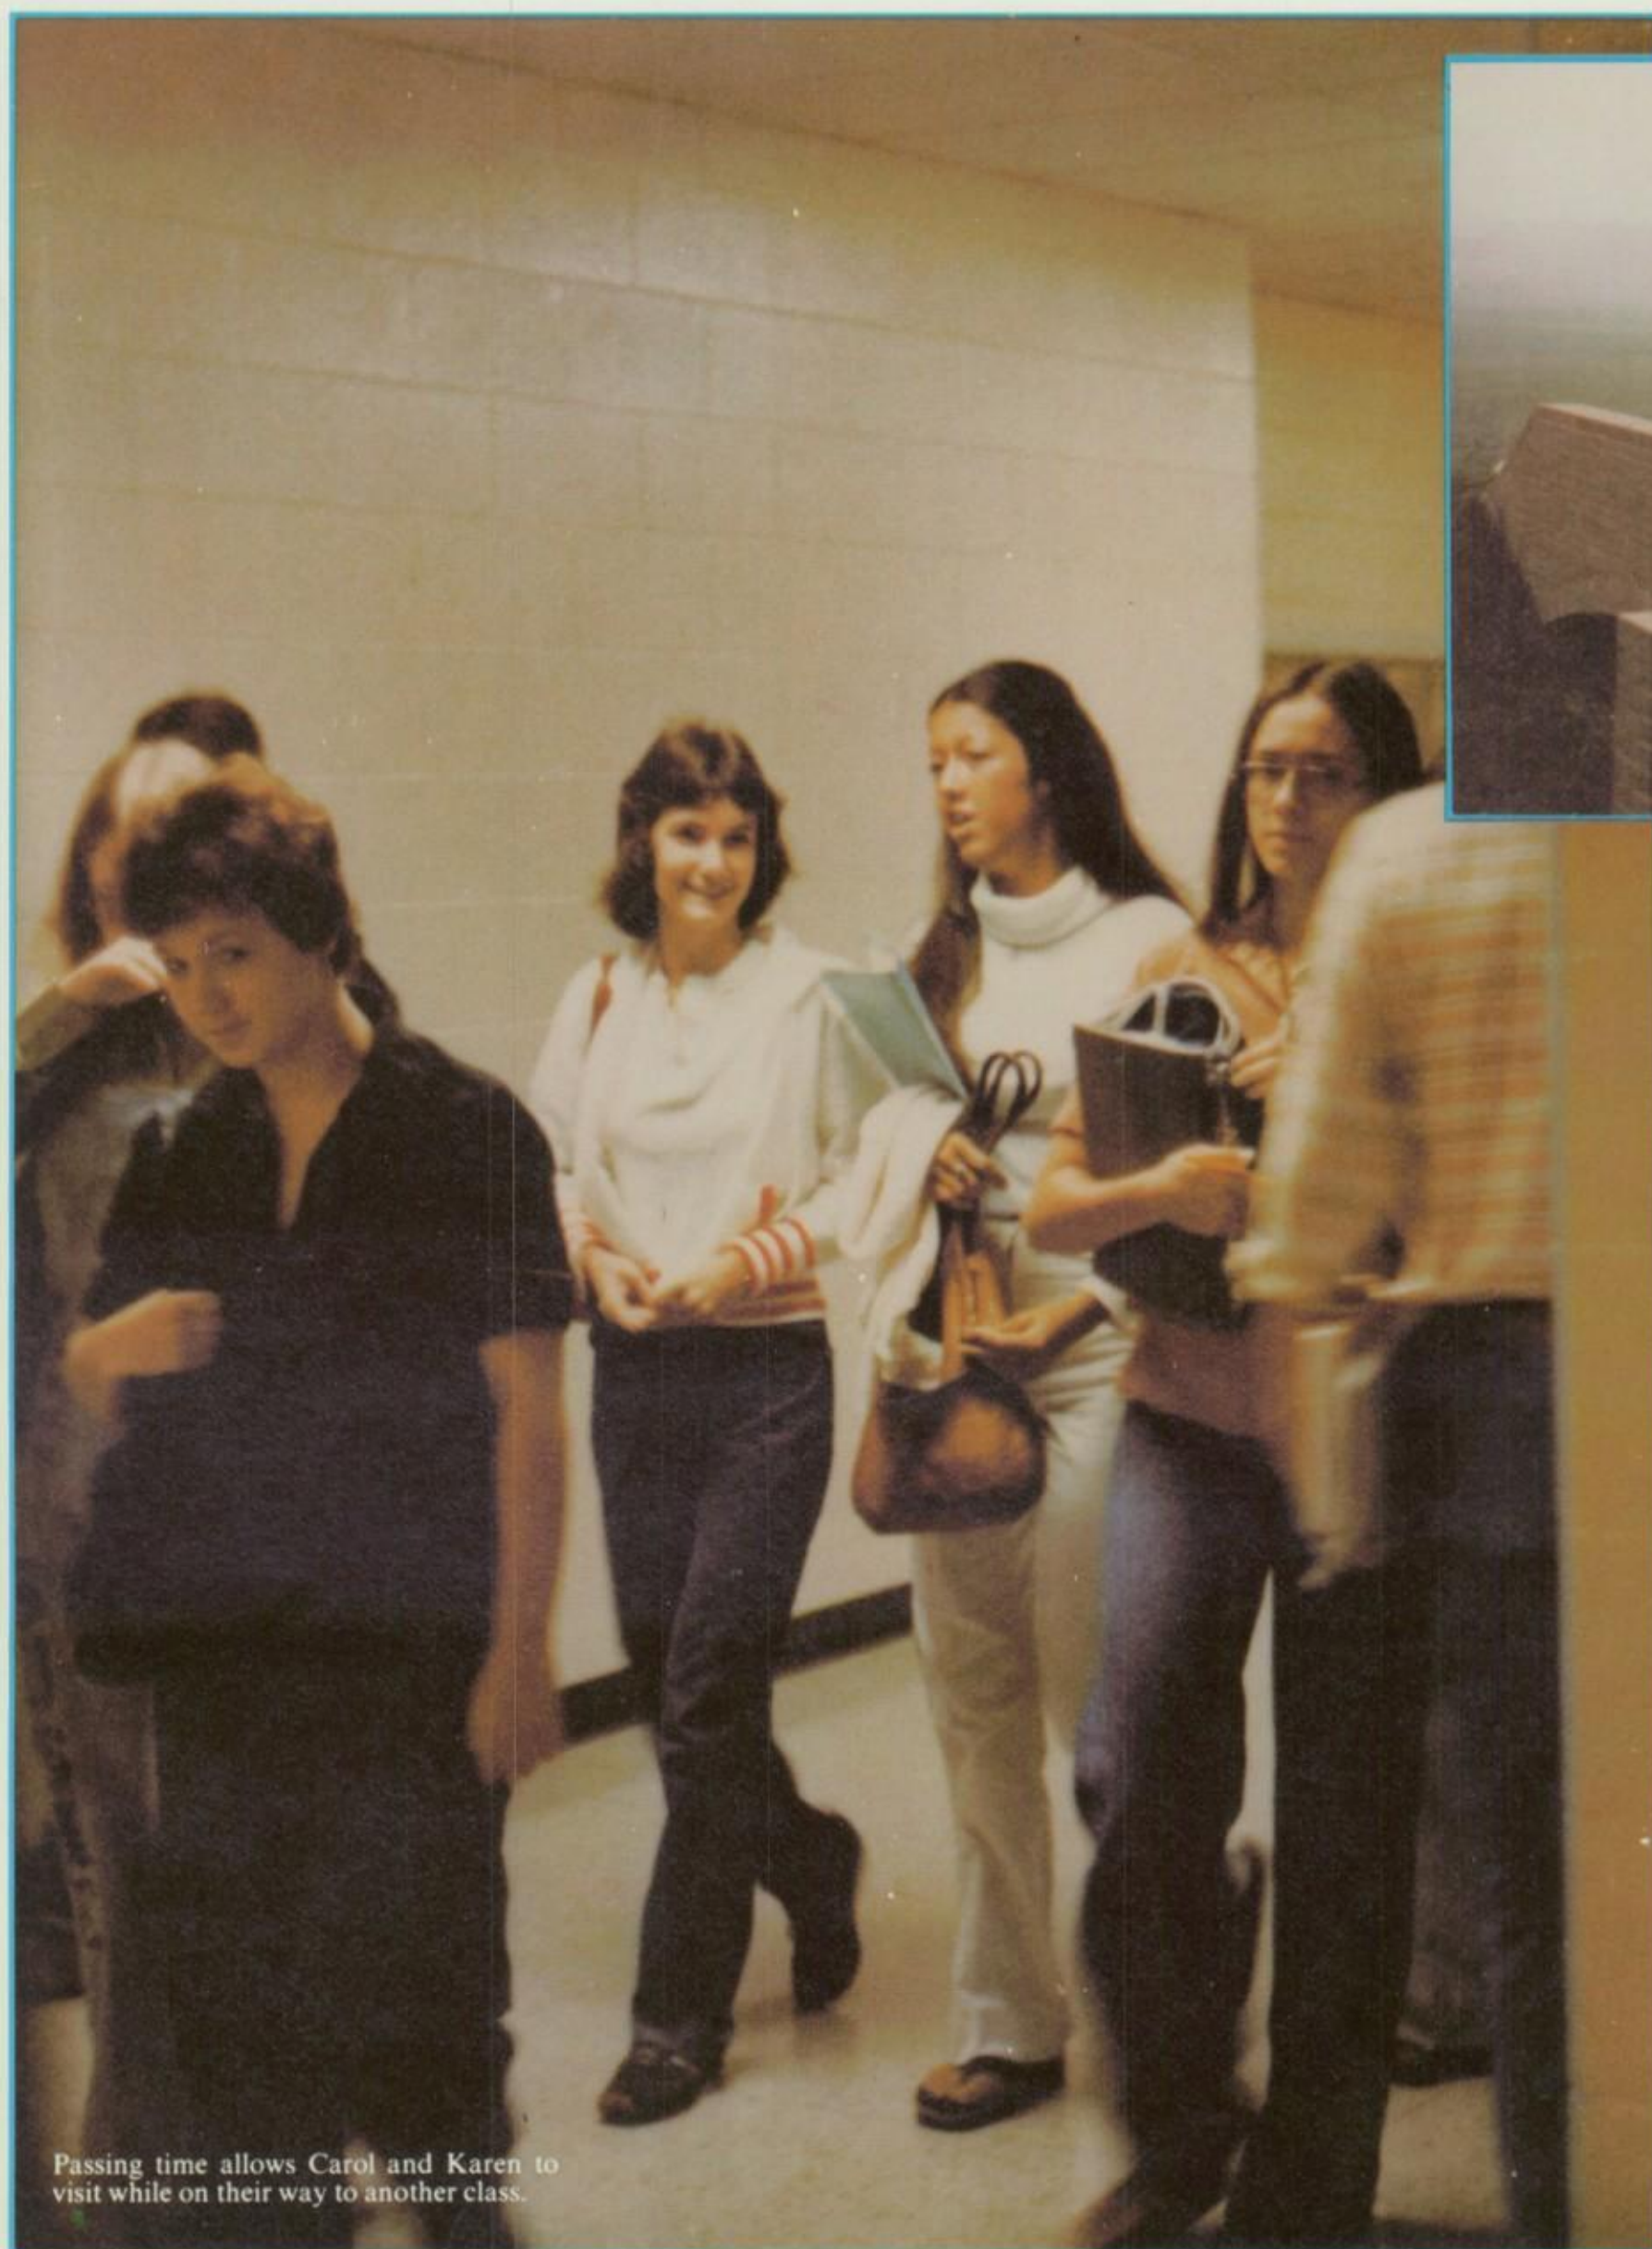

## Our *new Miss*

For the year 1977-1978 we are now on *Our Side of the Bridge*. Mississinewa students now have a brand new 8.3 million dollar school to attend. The first few weeks were an adjustment period for everyone, due to new surroundings and newly proposed rules; but students adjusted fairly well and classes went on as usual.

The new Mississinewa High School has excellent

facilities, and for the first time plenty of space. Teachers were amazed at all the new equipment available to them. The Science

Passing time allows Carol and Karen to visit while on their way to another class.

Despite foggy weather students still trek toward their first period class.

Department now has the necessities to perform the experiments that they couldn't before. The Language Department has a lab room that establishes communication between

students and the teacher.

The Fine Arts Department includes a Band Room with individual practice areas, and an Art Room complete with a sketch loft.

Mrs. Tavenner demonstrates some of her knowledge of chemistry to her pupils.

The new "Miss." is not only utilitarian, but the school has been much acclaimed for its architectural beauty as well.

Mr. McCullum and Mrs. Tavenner seem to really be enjoying the new facilities.

When MHS moved this past summer, there were several changes made in the system, but three of these affected nearly everyone.

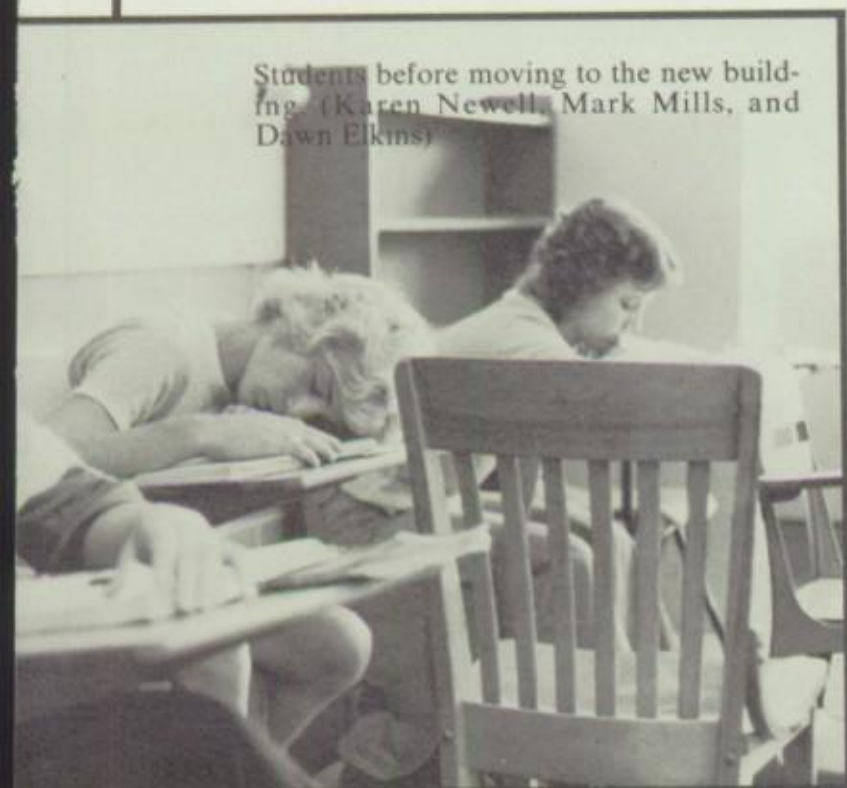

The first of these was the end of the open campus system which brought about the

**The new facilities**  
need for study halls. The cafeteria was chosen as the scene for the study periods and is also the setting for major change two, closed lunch periods. All full day

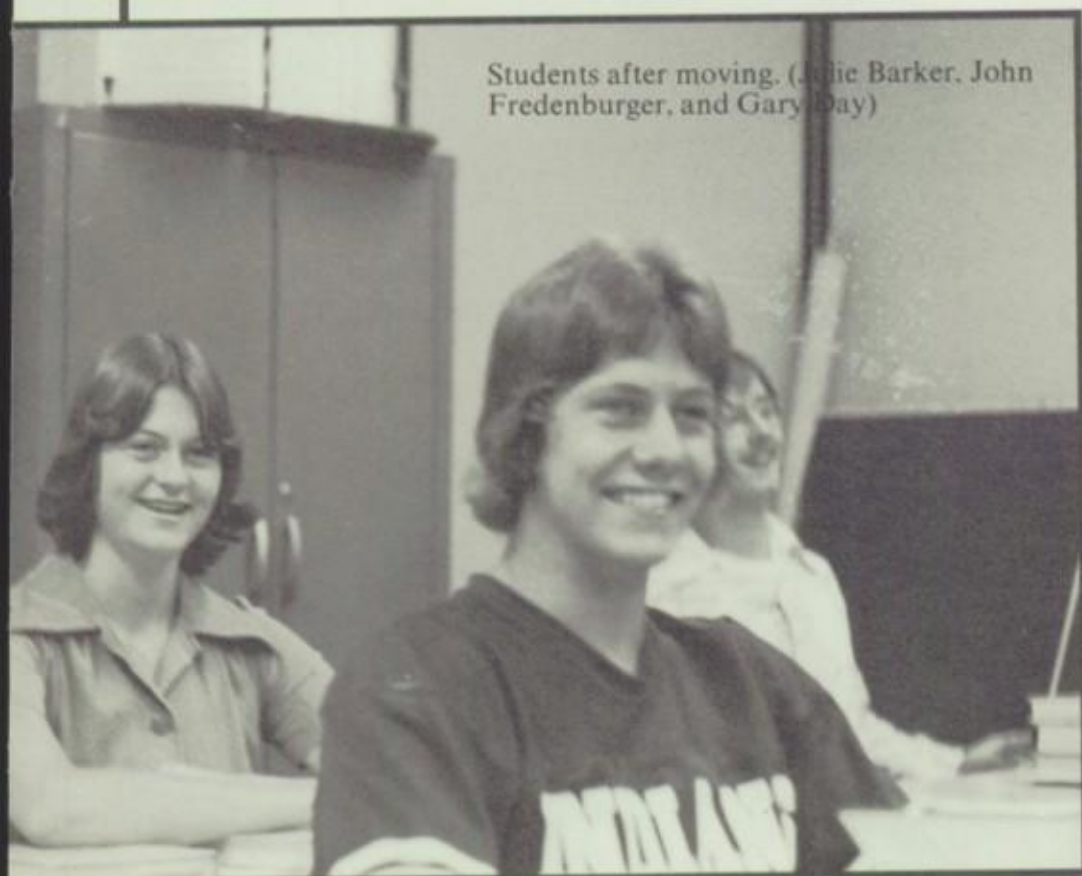

students are now required to eat lunch at the school whether it be ala carte, type A or brought.

The third difference is the facilities themselves.

Students before moving to the new building. (Karen Newell, Mark Mills, and Dawn Elkins)

Students after moving. (Julie Barker, John Fredenburger, and Gary Day)

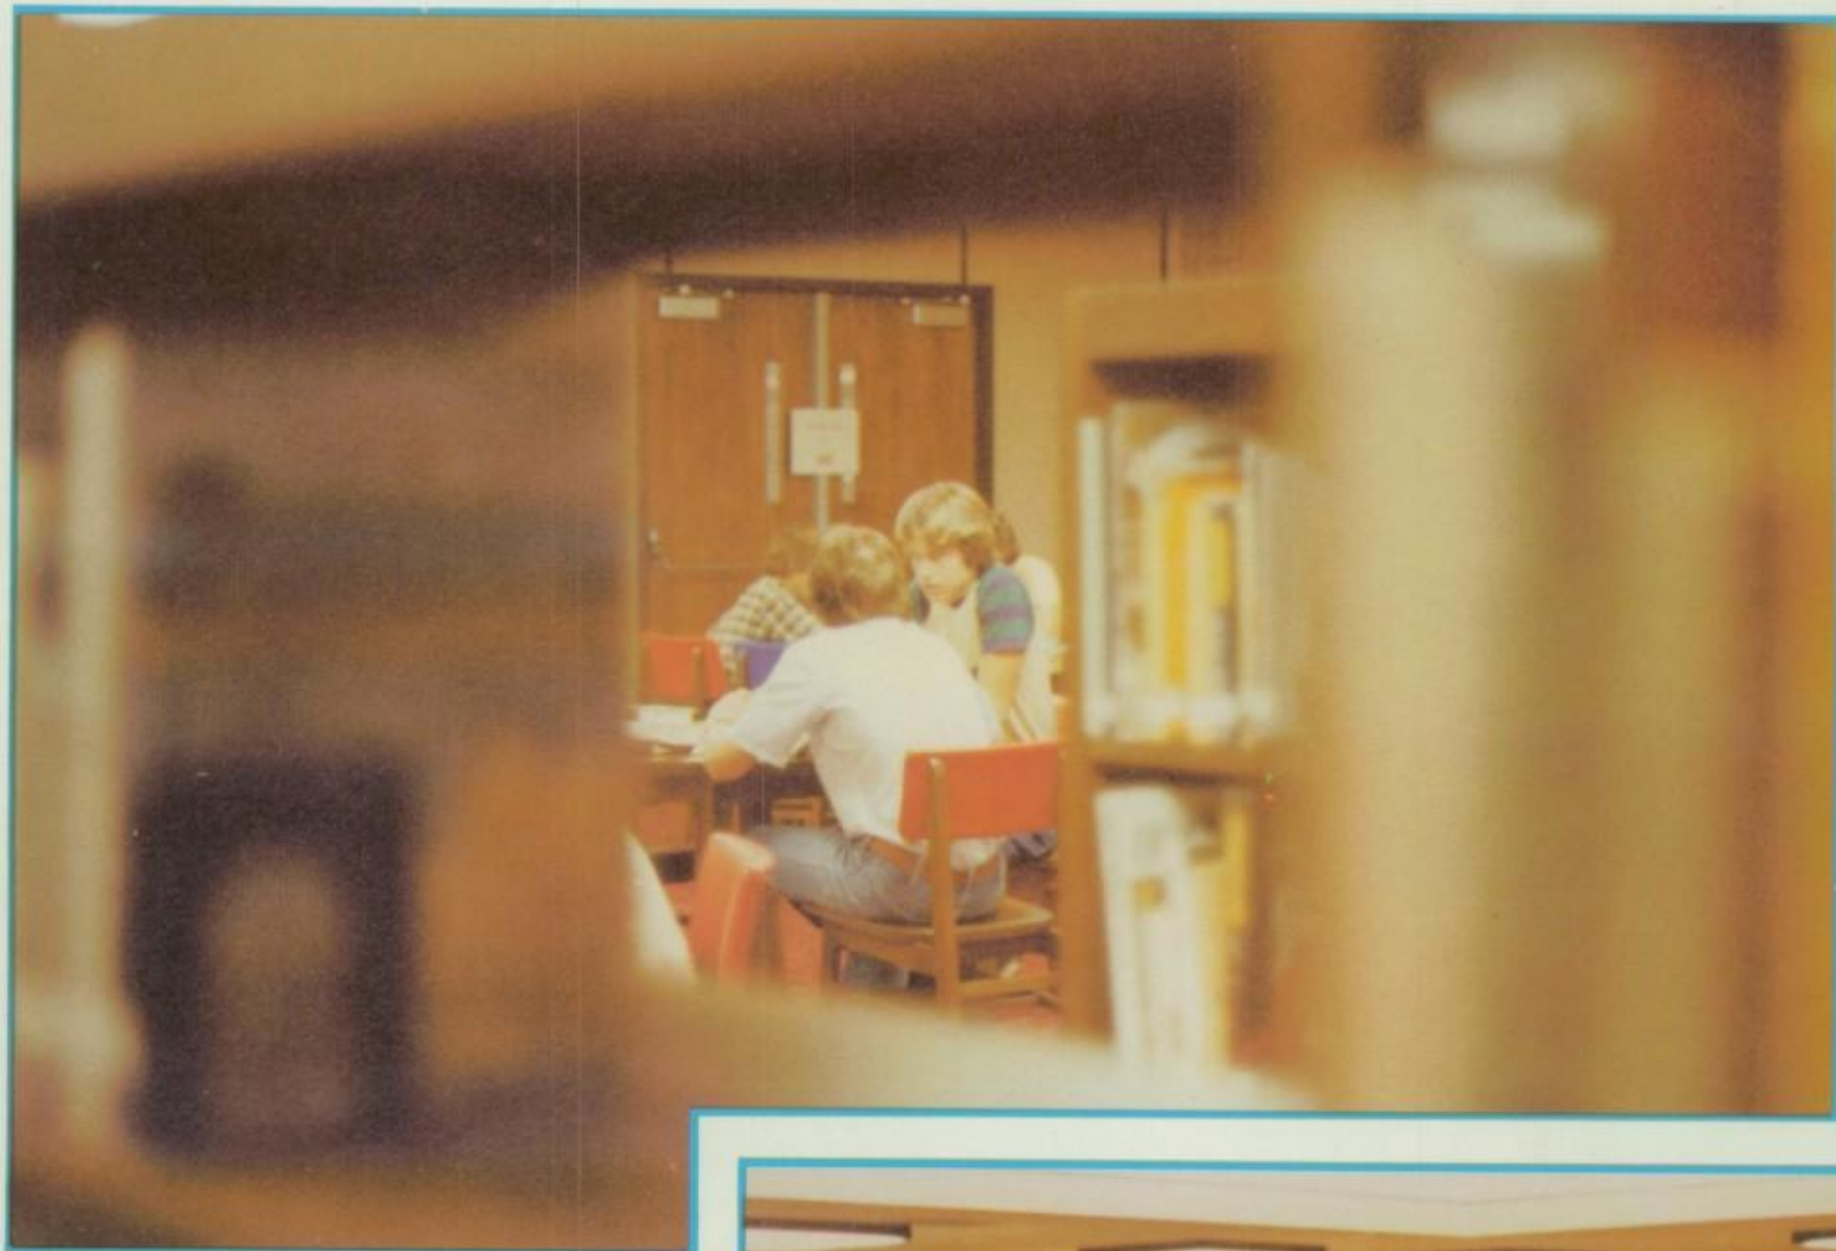

## The new MHS *resource center*

Mrs. Rosen, the school librarian, went from a small undersized library, to a giant Resource Center practically overnight. She was not alone—to help her were two librarian-clerks: Mrs. Jacks in charge of circulation, and Mrs.

Stevenson in charge of media and audio visuals. The beautiful new Resource Center can boast of having approximately forty-two carrels with facilities for individual study. The library proper is a sunken study area with ample

number of tables and chairs. The total capacity for the center is one-hundred and eighty people. The library is provided to make studying pleasurable, rather than drudgery. With surroundings like this, who could complain?

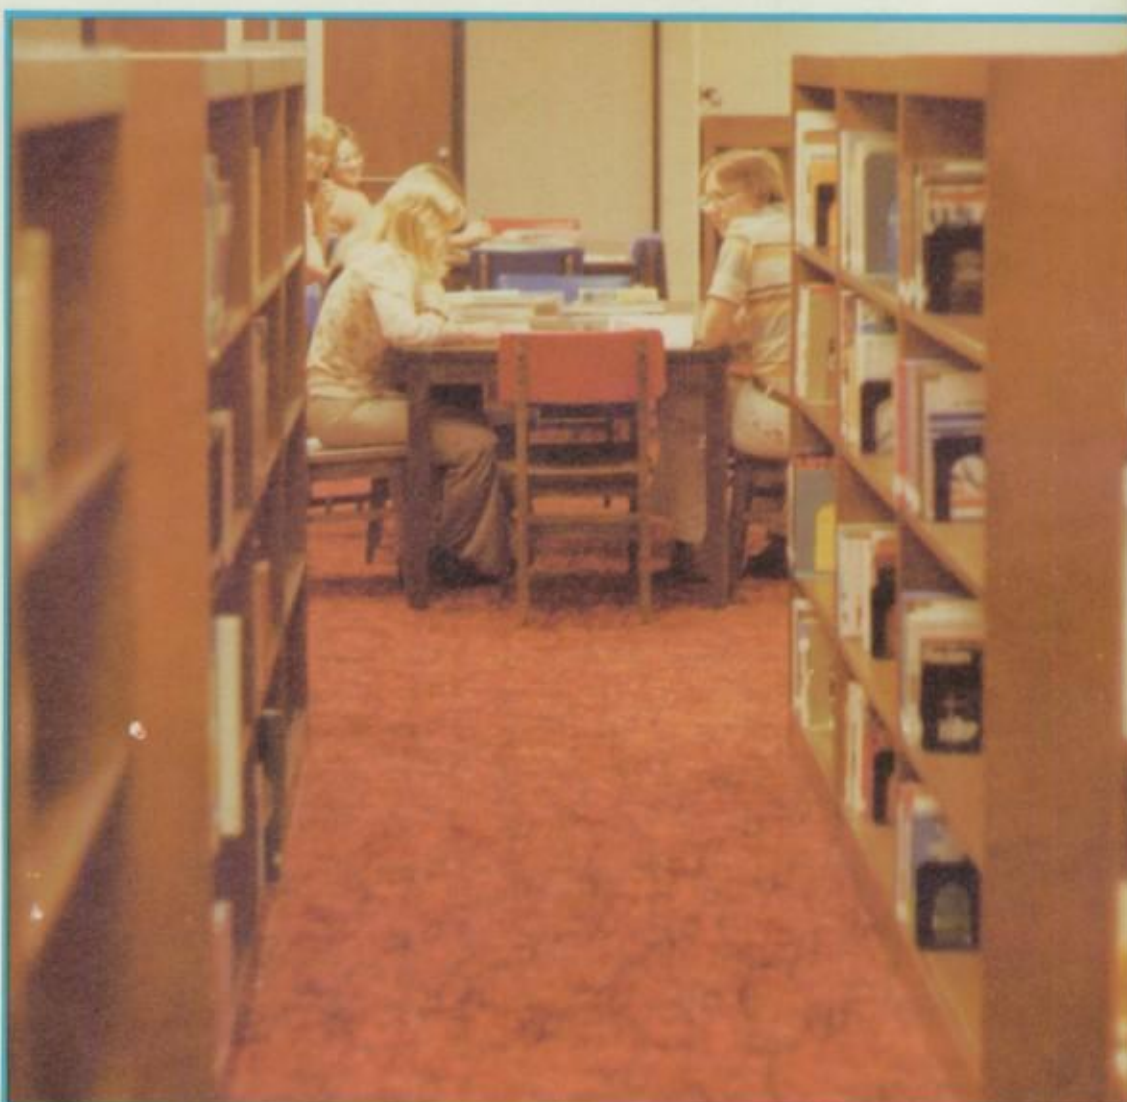

Chuck Hester takes advantage of a free moment and exchanges thoughts with another student.

Mr. Fessenden's English class becomes acquainted with the new facilities.

The dictionary shelves are a popular stop for students doing their spelling words while in the center.

Lisa Colyer is one among the students who gave Mrs. Rosen a hand during school hours.

The library supplies not only a quiet place for study but also for conversation as junior Marc Royal demonstrates.

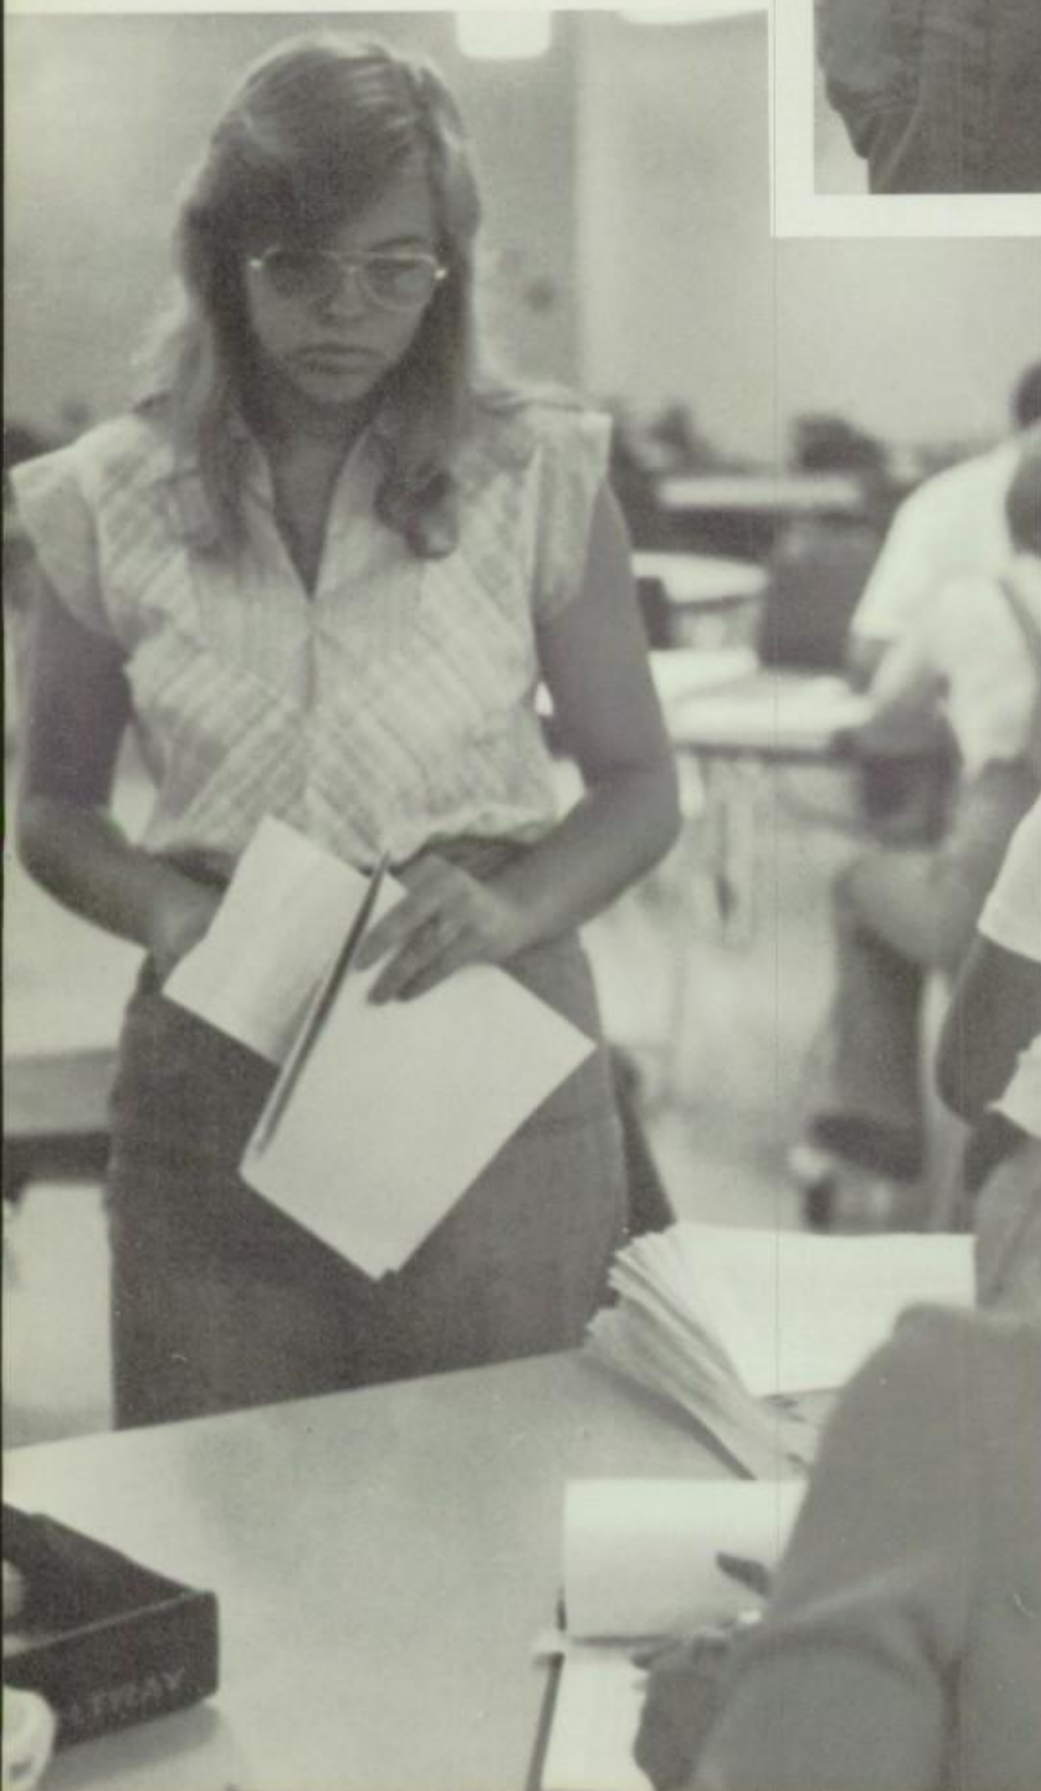

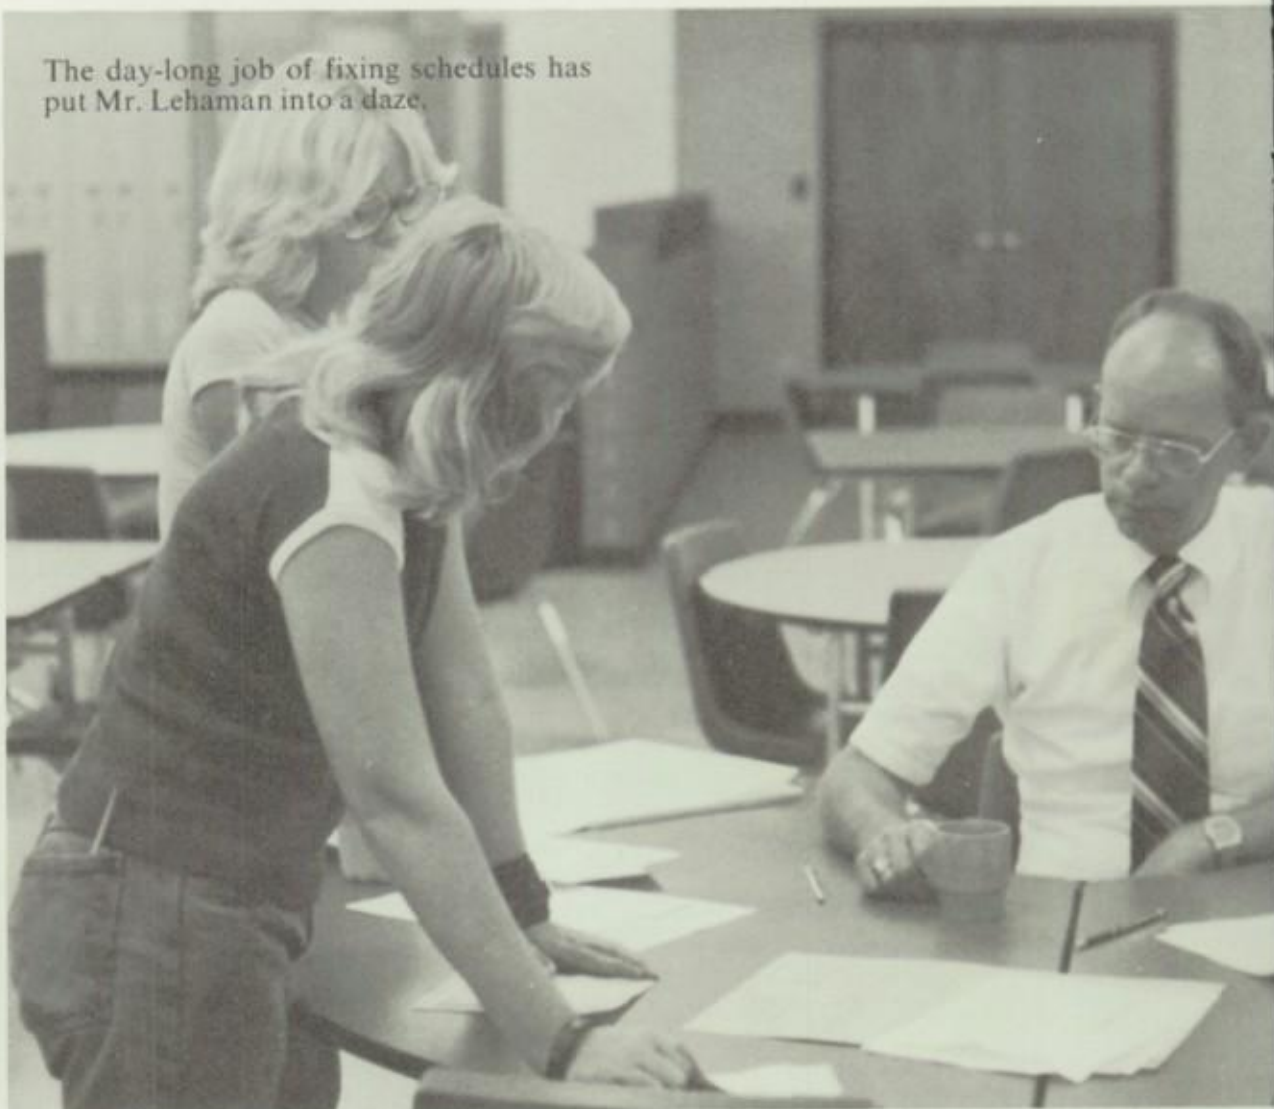

# Registration

Waiting seemed to be the name of the game at registration this year as students attempted to collect schedules and books for their upcoming classes.

Computer foul-ups plagued many students who found themselves taking three Typing One courses all in the same semester.

Counselors fought to right the wrongs set in by the highly sophisticated machines as Aryss Beebe passed out books and Judy Hawkins and Mona Smith distributed "free" lockers.

The day-long job of fixing schedules has put Mr. Lehaman into a daze.

Jerry Tudor and Frances O'Mara wait for Mrs. Beebe to fill their book orders.

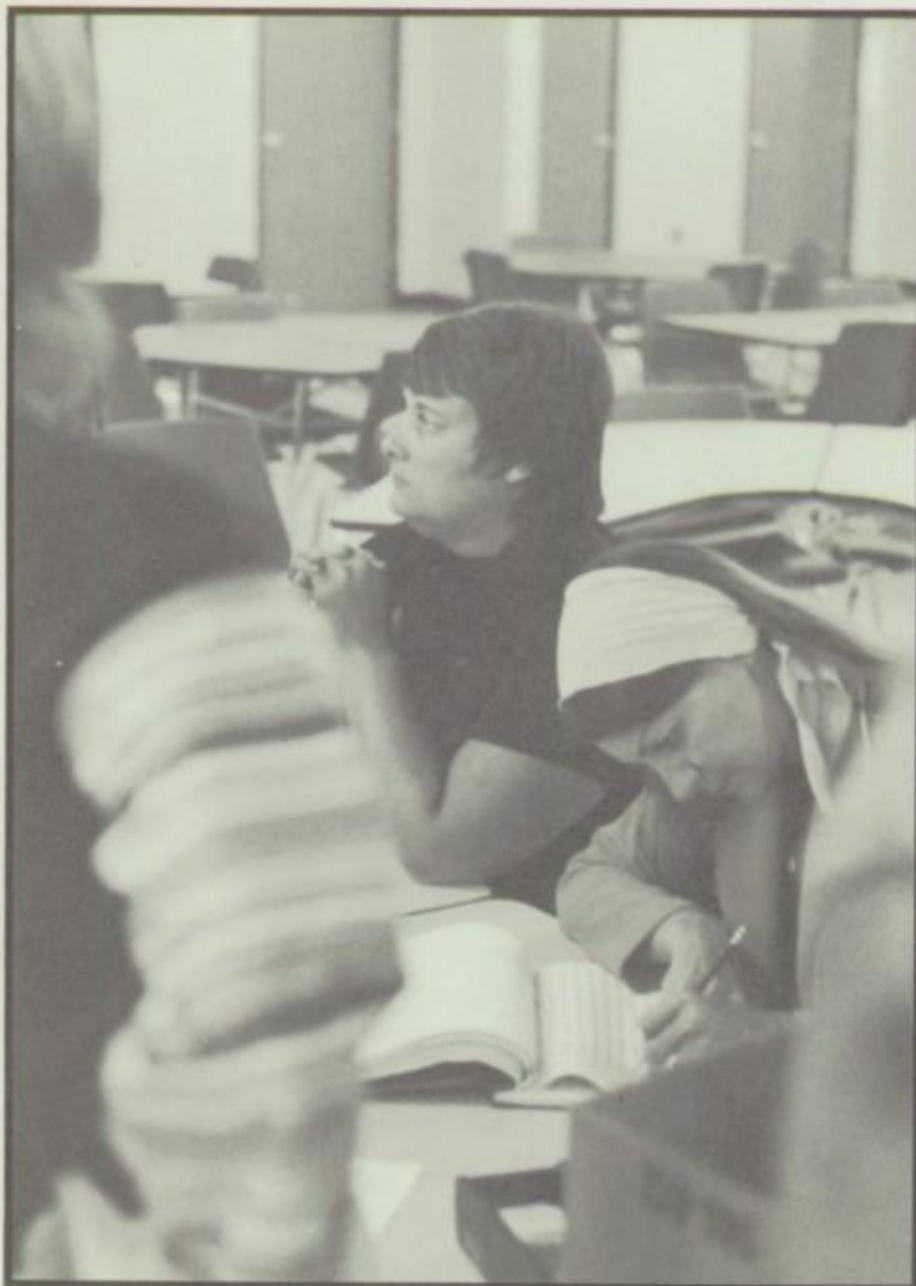

Sandy Demarcus receives her free gift of a brand new locker!

Tim Cragun looks satisfied with his classes but his mother seems to be having second thoughts.

Judy Hawkins takes a break and lets Mrs. Mona Smith do some writing for a while.

## Cafeteria:

# the eating place and society circle

The cafeteria serves the school, not only as a place to get a pretty fair lunch and/or breakfast, but also as a place for kids to socialize and relax a minute.

The cafeteria has undergone some pretty important changes. There are now four lines of service. Two are for the regular fifty cent meal. The other two are for what is known as "ala carte." In this line are hamburgers and french fries, plus salads, puddings, and sandwiches. That way one gets a little variety every day.

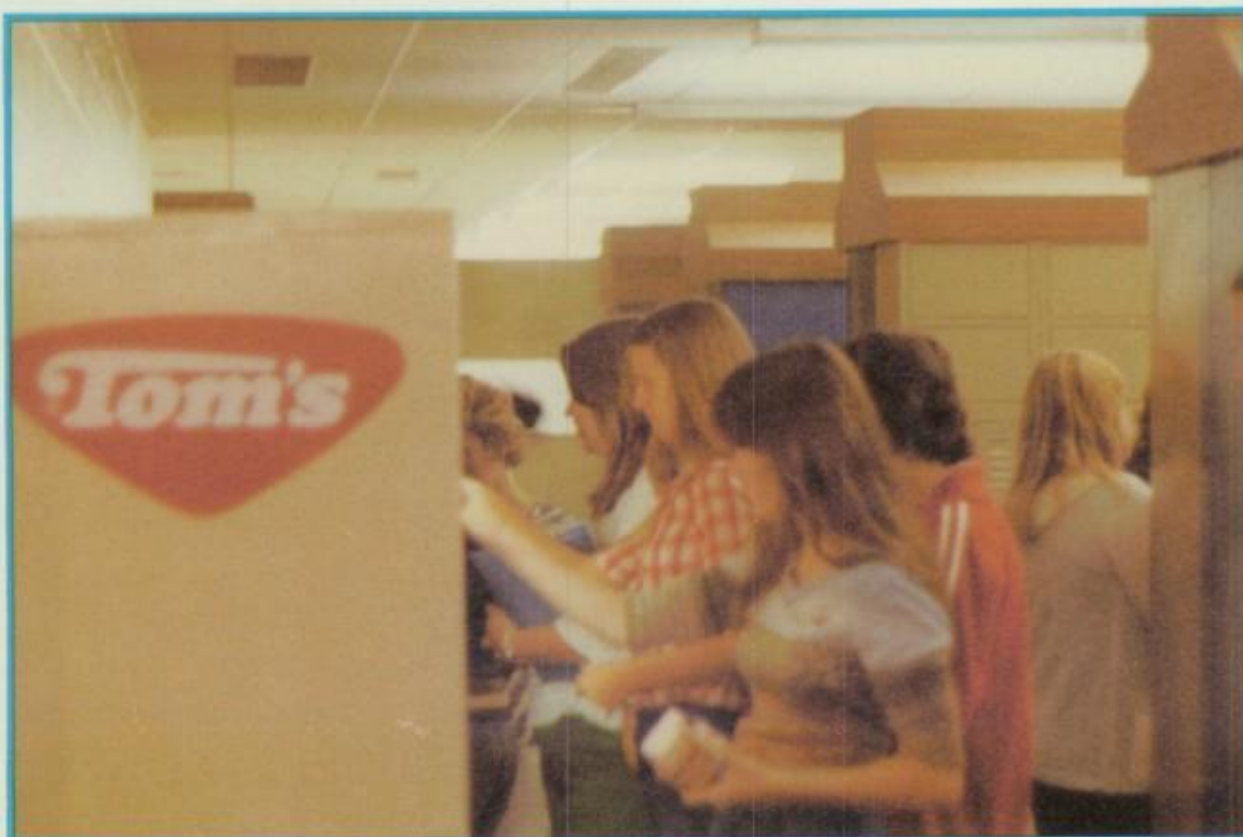

The cafeteria took on a new

look too. The tables are geometrically shaped, and everything is color coordinated.

The fact that it also offers a place to "visit" for awhile, is important to a lot of people; especially since the upper bleachers are no longer available.

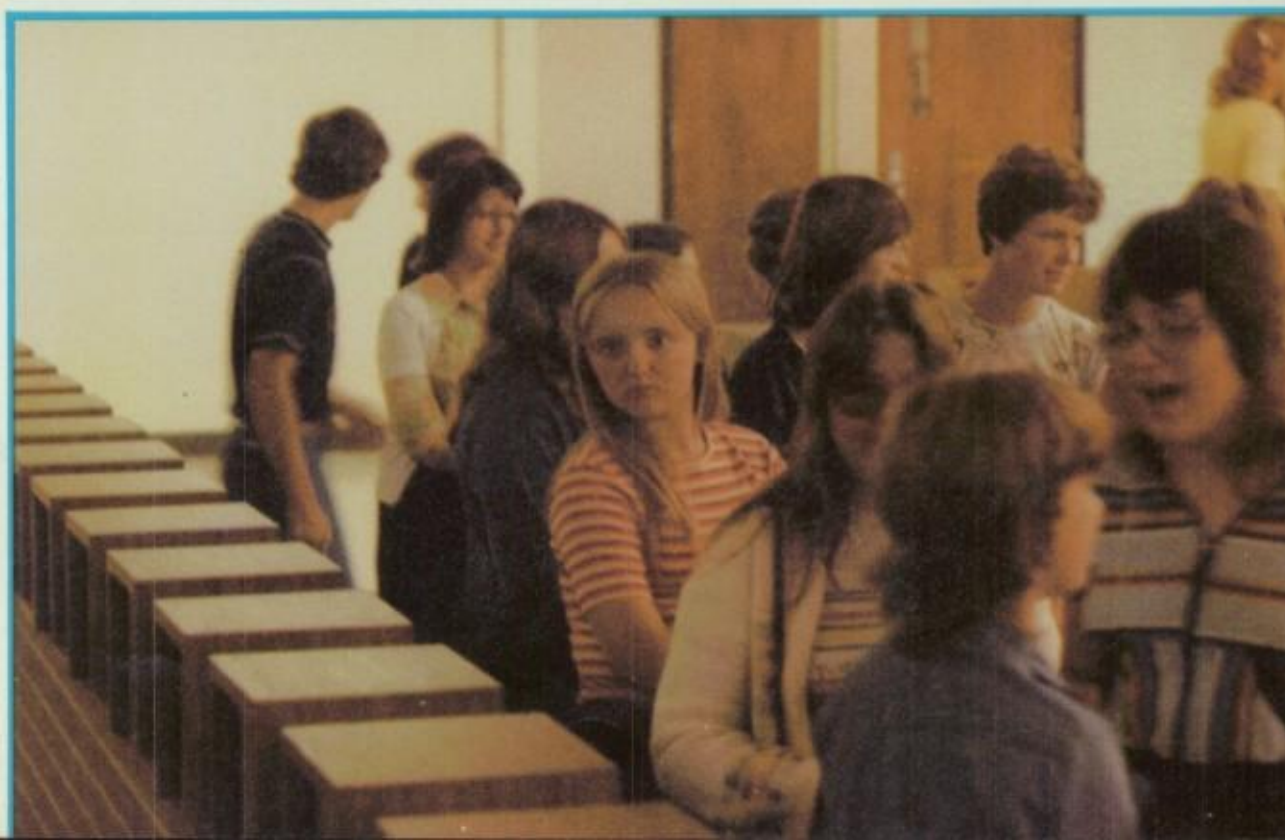

The teachers also appreciate a chance to sit and talk by themselves in the new faculty dining area. Now that we're in the new building, it is more difficult for teachers and students alike to stop and talk awhile in the halls. The cafeteria relieves the diffi-

culty and gives us a chance to do just that. For one, blessed half an hour, one gets lunch and conversation for just fifty cents.

The candy machines are a favorite among the lunchtime students.

Long lines plagued the cafeteria at the beginning of the year when only two lines were used. Despite the long wait these girls seem to be able to keep themselves entertained.

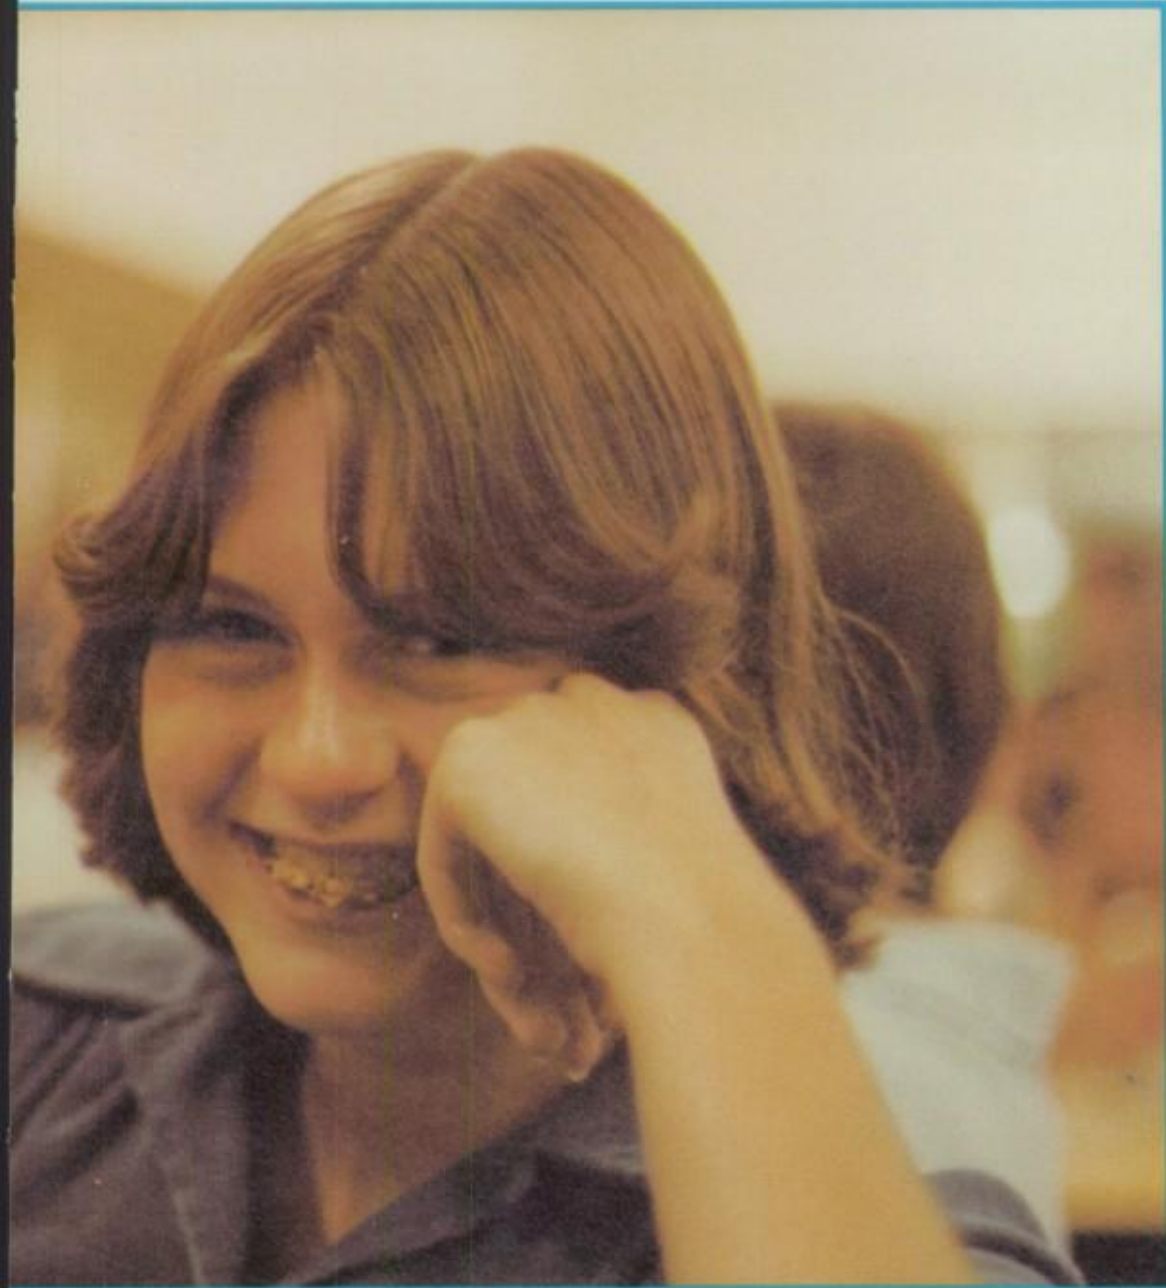

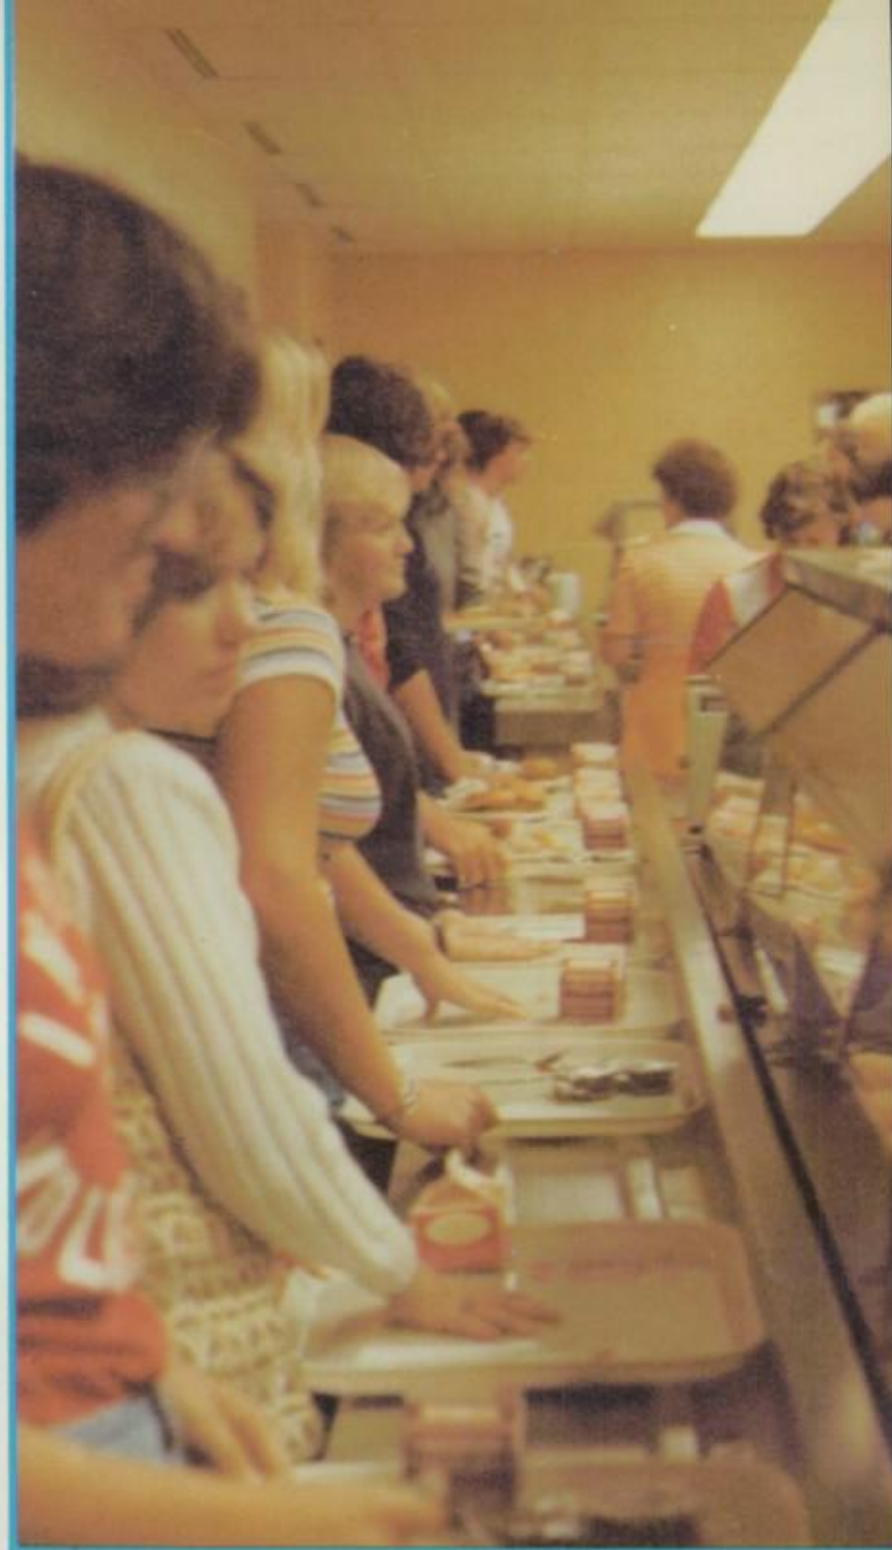

This is much the scene once students get inside the doors. With milk on trays these students await their generous helping of MHS cafeteria food.

Julie Barker really enjoys her mid-day meal with a carton of milk to wash it down.

Another popular area of the MHS cafeteria is the "works bar" where you can fix your burgers the way you like them at no extra cost.

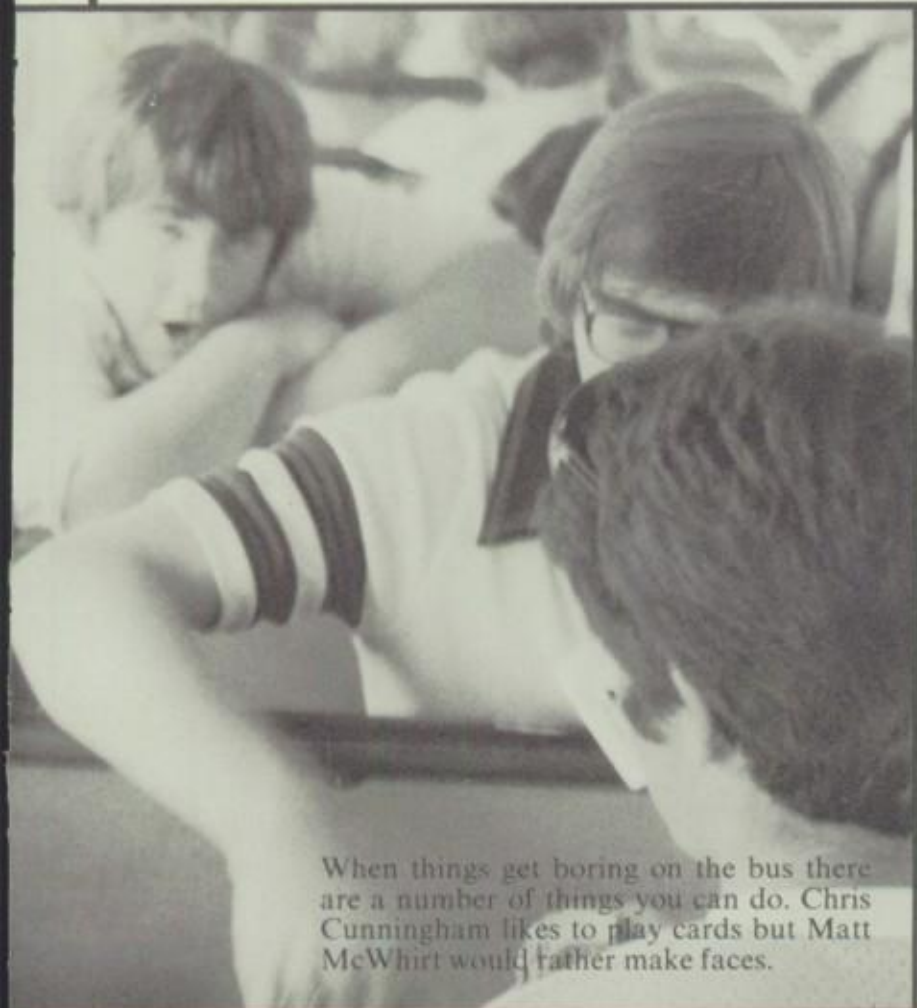

No Greg, this is summer band not the circus.

## Activities

Tuesdays are a special day for the active student at MHS because they receive the chance to cut class and attend a special activity period that lasts for an hour during the day. Clubs

meet and fill the student in on the latest events happening within the different organizations. This section covers these activities.

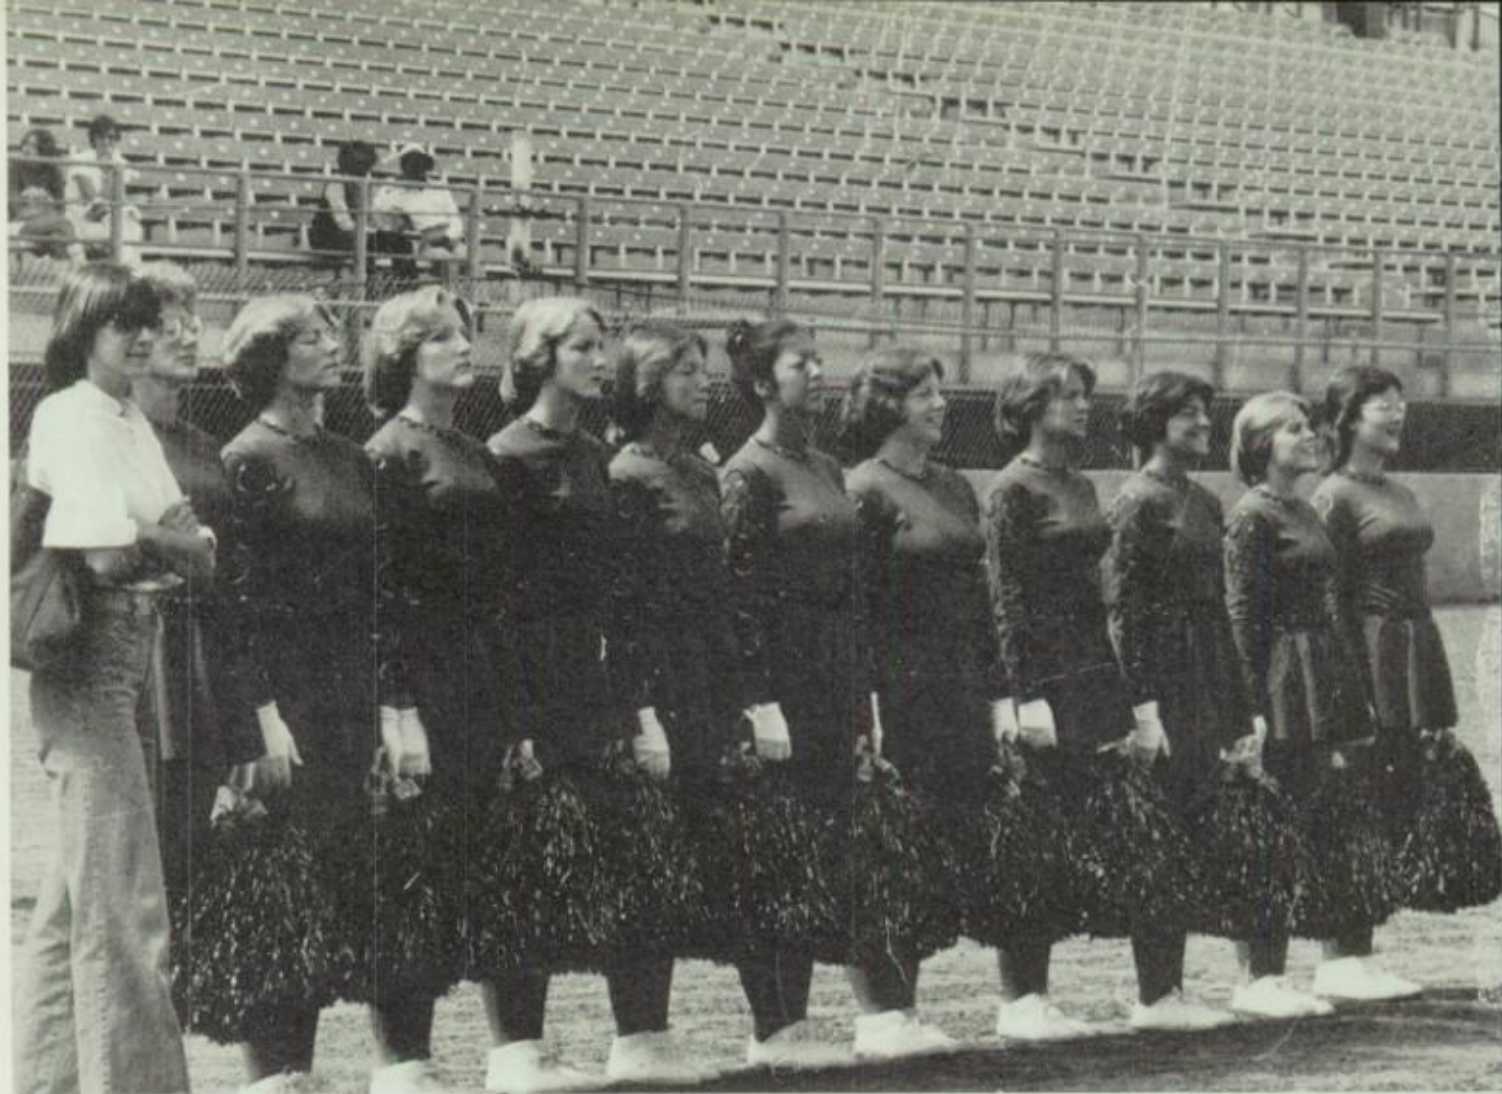

When things get boring on the bus there are a number of things you can do. Chris Cunningham likes to play cards but Matt McWhirt would rather make faces.

Dave Murray gets first-hand experience on the habits of a pig.

Lesa and Anita still find time to clown around while getting ready for the Farmers' Day Parade at the Indiana State Fair.

Kelly gives the girls her last bit of encouragement before the officials give their final decision.

# Poms place 7th at fair

Mississinewa has as one of its many activities The Indianettes. The Indianettes are the pom pon division of the marching band.

They not only march and compete with the band but they also participate in contests of their own.

The squad starts preparing themselves for state-wide contests

From left to right: Kelly Moyer, Penny Harlan, Debbie Roach, Jane Murphy, Jean Murphy, Robin Smelser, Carol Brock, Terri Reed, Lesa Wesling, Melody Colyer, Sherri Voland, and Anita Vaughn all stand at attention as they wait for the judges' final decision at the State Fair.

just as soon as the names of the team members have been announced, usually in April or May.

Our poms place a great deal of emphasis on their discipline which creates a working type atmosphere while they practice.

After working both night and day on their contest dance routine these eleven girls took a trip down to camp which was held at Ball State and managed several placings in dance, drill team, and overall performance.

The girls then returned home to better prepare themselves for upcoming competitions.

With the help of Kelly Moyer who originally choreographed the routine, the poms attempted to work all the bugs out.

With "shaft" as their theme the Indianettes danced their way into a second place seating at the Marion County Fair, and a disappointing seventh place at the Indiana State Fair.

The poms also went to the Indiana State Fair with the marching band on Farmers' Day.

Melody, Terri, Lesa, Jane, and Penny flash a prize-winning set of smiles toward the judges' stand.

This year's theme for the homecoming dance was "Looks Like We Made It." The reigning court for the big event was (below) Linda Patterson, Junior

Attendant; Tonya Lowden, Freshman Attendant; Wendy Rodriguez, Queen; Brenda Moriarity, Senior Attendant; and Connie Neeley, Sophomore

Attendant.

After a disappointing loss to Eastbrook High School, the dance was held in the cafeteria.

The band playing was Cassady as in past years. The music stopped around eleven and the couples left to enjoy the rest of the evening together.

The Homecoming's activities were topped off with a powder puff football game won by the Junior and Sophomore classes. A parade through the town also highlighted the events of the evening.

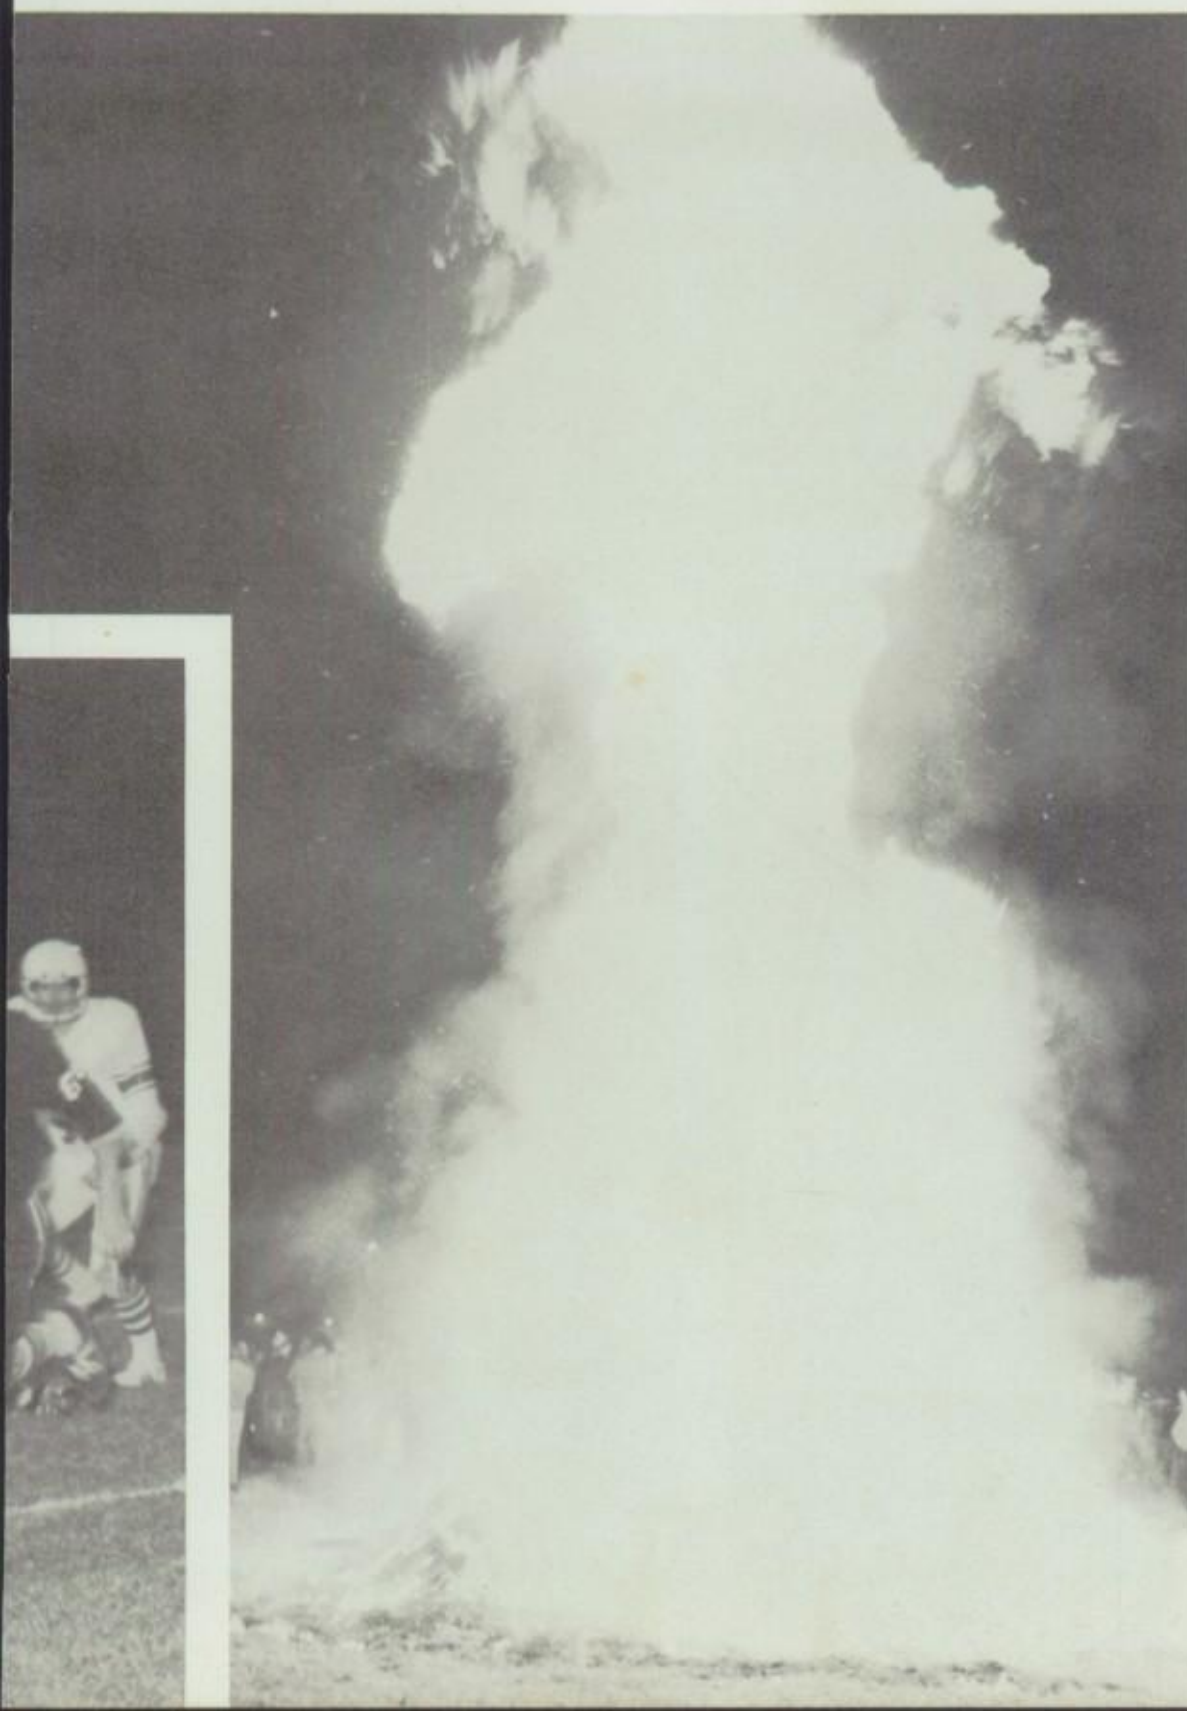

The annual bonfire was held the night before the actual game in an effort to spirit the team into action.

## Memories of homecoming

## Jr. Miss

Color my world played in the background while sixteen contestants promenaded around the stage for an audience of several hundred people and a panel of judges. This was much the scene for the 1977 Junior Miss Pageant.

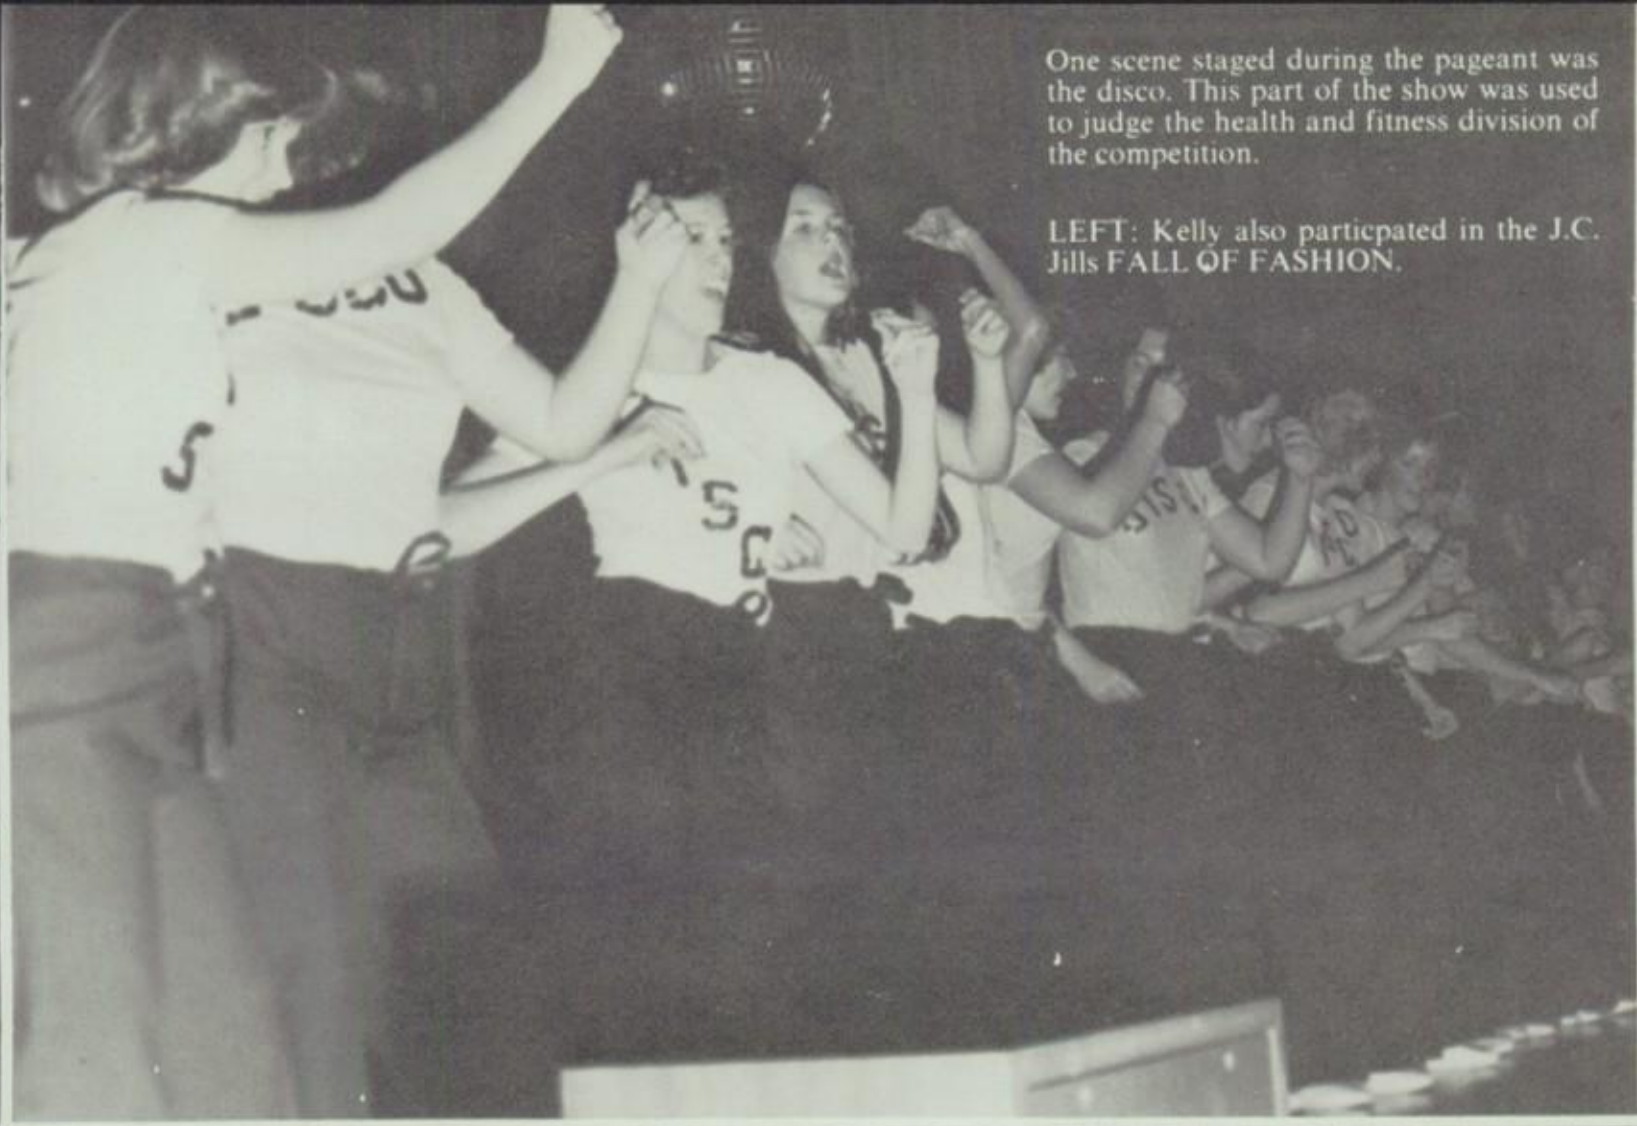

Out of the sixteen three divided the awards. Shari Brown was the winner of the scholastic achievement bond

as well as the physical fitness award and placed as second runner-up.

Kelly Esra won the talent competition and scored as first runner-up.

At the end of a long talent and beauty filled evening, Gwynn Black was announced Junior Miss and also won the Poise and Appearance.

One scene staged during the pageant was the disco. This part of the show was used to judge the health and fitness division of the competition.

LEFT: Kelly also participated in the J.C. Jills FALL OF FASHION.

ABOVE: Kim Huston draws for her talent during that part of the program.

Campus Life, a division of Youth For Christ, is a lot of different things.

Aside from the weekly meetings where today's problems are answered with Christian insight, the club sponsored a number of activities.

One such activity was the Mud Bowl held this year for the first time at the Upland City Park. Pictured below are some of the stunts seen there.

Another was the Scream in the Dark, a money raising haunted house.

The Snow Day was for those who can appreciate cold weather. This year it was held at Pokagon State Park.

Campus Life also sponsored its annual trip to Florida during Spring Break.

Phil Bender headed up the Mississinewa Club this Year.

Slip slidin' away

Dave Murray

The annual Spring musical last season was Rodgers and Hammerstein's *OKLAHOMA*.

The story is staged in a small farming community around the turn of the century in Oklahoma Territory. The play opens at the ranch of Aunt Eller (Teri Young) where Lori lives (Carrol Radamaker). Curly (Jay Campbell) comes to court Lori. Pride separates the couple and Lori goes out with Jud (Dave Murray).

## *OKLAHOMA* staged

A love triangle is formed but all works out. The antics of Ali (Marty McKelleb) and Ado Annie (Susie Wise) along with Will (Dan Shoemaker) keep the plot always moving.

Don Kellogg, Debbie Appleman, Bill Pearson, Dave England; all put together these people make up the Mississinewa Swing Choir.

Within the music department at MHS can be found these three performing groups. The Swing Choir meets third period and performs for different churches and clubs. The Tonettes meet after school. This all girl choir also performs for churches and social groups. The other performing choir is the Girls' Choir.

# Athletics

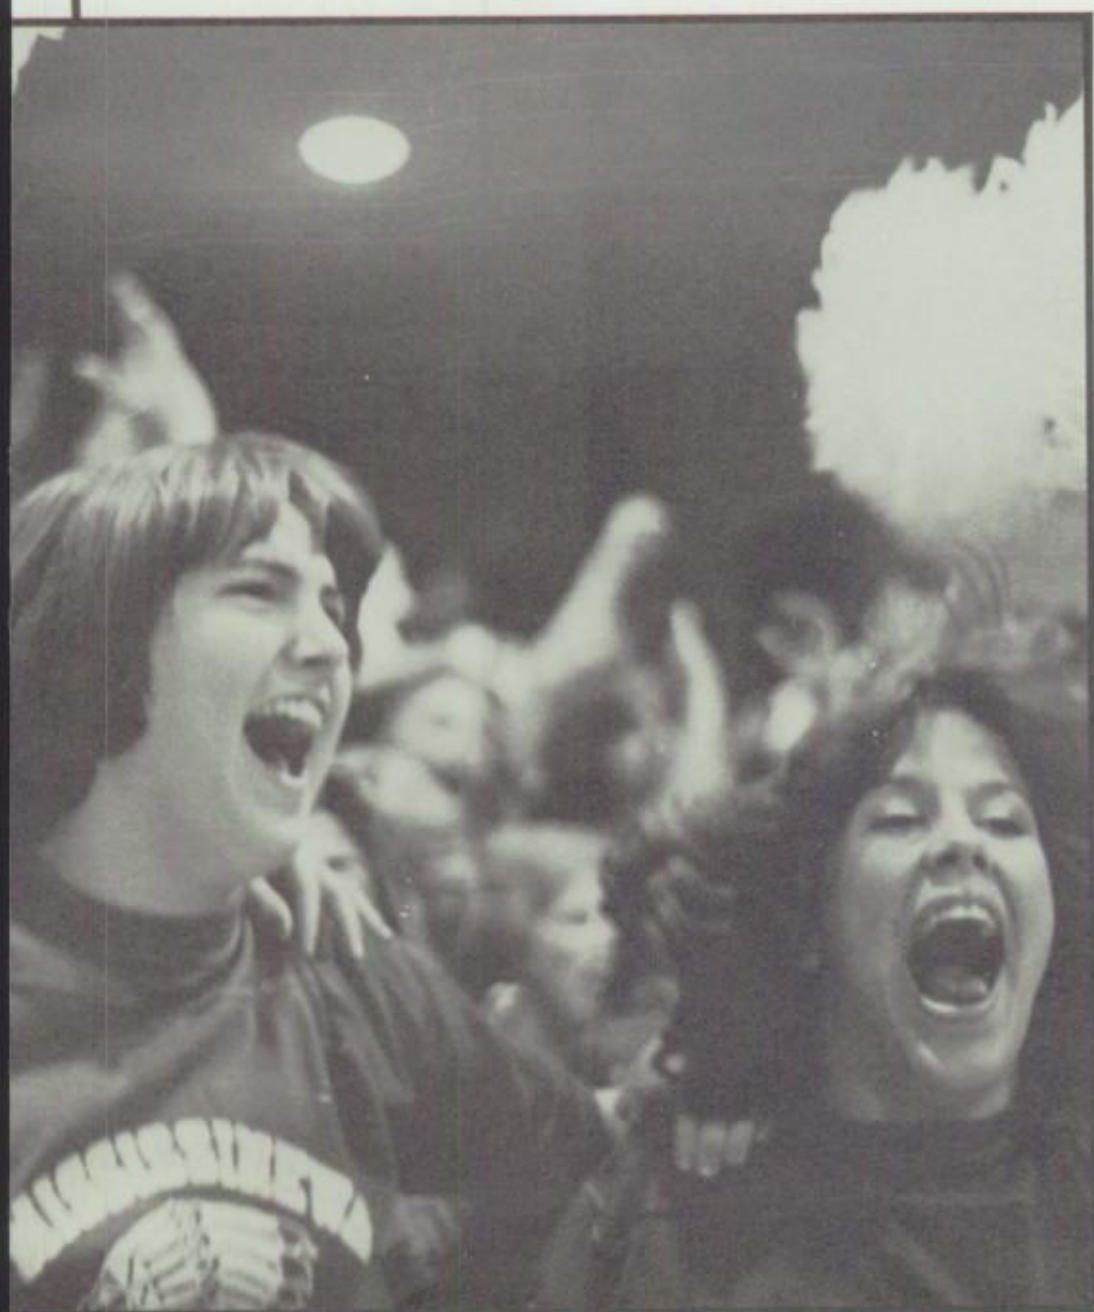

Not only does MHS have new playing facilities but it also has new coaches to boast of.

Coach Del Jarman had his first year at MHS with the football team. Ron Bocken was new with the basketball team.

Another new coach Rick Bomholt took the tennis team after Harlan Murray left in October. Mrs. Kathy Scharfanberg led girls' track and Mr. Tim Fisher assisted Coach Wayne

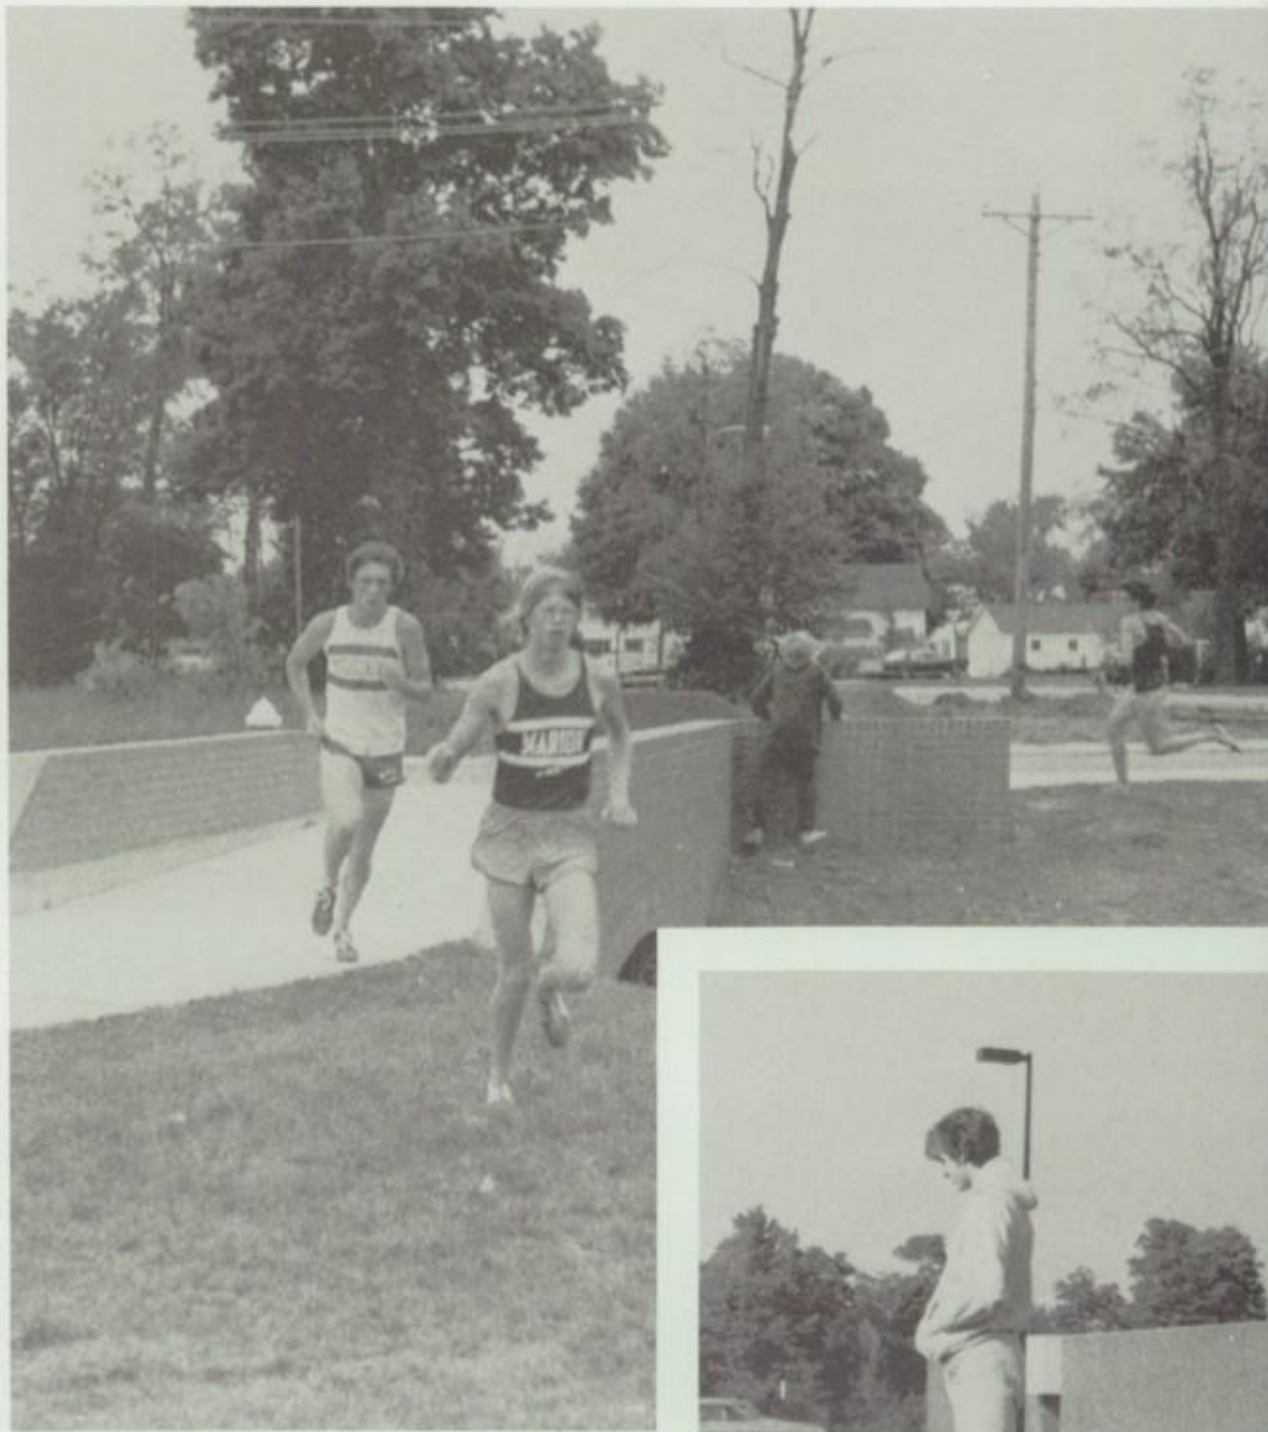

Huddleston with the wrestling team. Track was headed up by Coach Steve Barker, and girls' volleyball had its year with coach LeAnn McCoy who is new to MHS and also assisted with girls' basketball, which was headed by Coach Rosalind Stapleton.

# Team boasts of record

This year's tennis team can boast of new courts, a new coach, and a new record. The team bid goodbye to Harlan Murray as Rick Bomholt took over team management. The team achieved more wins than in any other year when they beat 6 teams in regular seasonal play to complete with a record of 6 and 9.

# Team boasts of record

This year's tennis team can boast of new courts, a new coach, and a new record. The team bid goodbye to Harlan Murray as Rick Bomholt took over team management. The team achieved more wins than in any other year when they beat 6 teams in regular seasonal play to complete with a record of 6 and 9.

## Academics

With the expansion of the classrooms and lab space, MHS will soon be able to offer more to its students in the form of academics.

Room in the shop area will allow for mechanic studies with actual cars. Science

projects can be looked into with greater depth because of the purchase of fine equipment. The list of possible offerings goes on and on and soon will become more reality than dream.

# Readin' ritin' rithmetic

Ever since the beginning of time students have been subjected to the three "R's" of education, readin', ritin', and rithmetic. This year at MHS has been no different.

All college bound seniors can brag of a four year English program that each of them had to go through.

Next year however the program changes to supply students with a wider variety of courses in a modular system.

Rithmetic at MHS can be a combination of several different courses from beginning or pre-algebra to trigonometry.

History is an automatic major starting with civics in the freshman year.

Another option open to students is the foreign language. A choice of French or Spanish and up to three years of either is available.

Only two years of science are required or a student can take up to six courses if he likes.

Certainly with all of this availa-

ble one can find a pleasing schedule.

# Mississinewa offers vocational training

For those of you who might not have planned on attending college, Mississinewa also offers a number of vocational electives.

MHS can boast of a state and National title winning D.E. and D.E.C.A. program, as well as the C.O.E. and O.E.A.

If business isn't your department then you can always sign up for a few shop classes where you can learn a skilled *(con't page 77)*

trade and then go on for vocational training.

Of course if none of that sounds good maybe home economics will make you happy. Anything from Bachelor Living to Foods II will prepare you to make a house a home.

Something new this year is a home repairs course to mold the student into a home do-it-yourselfer.

# Departments facilities expand

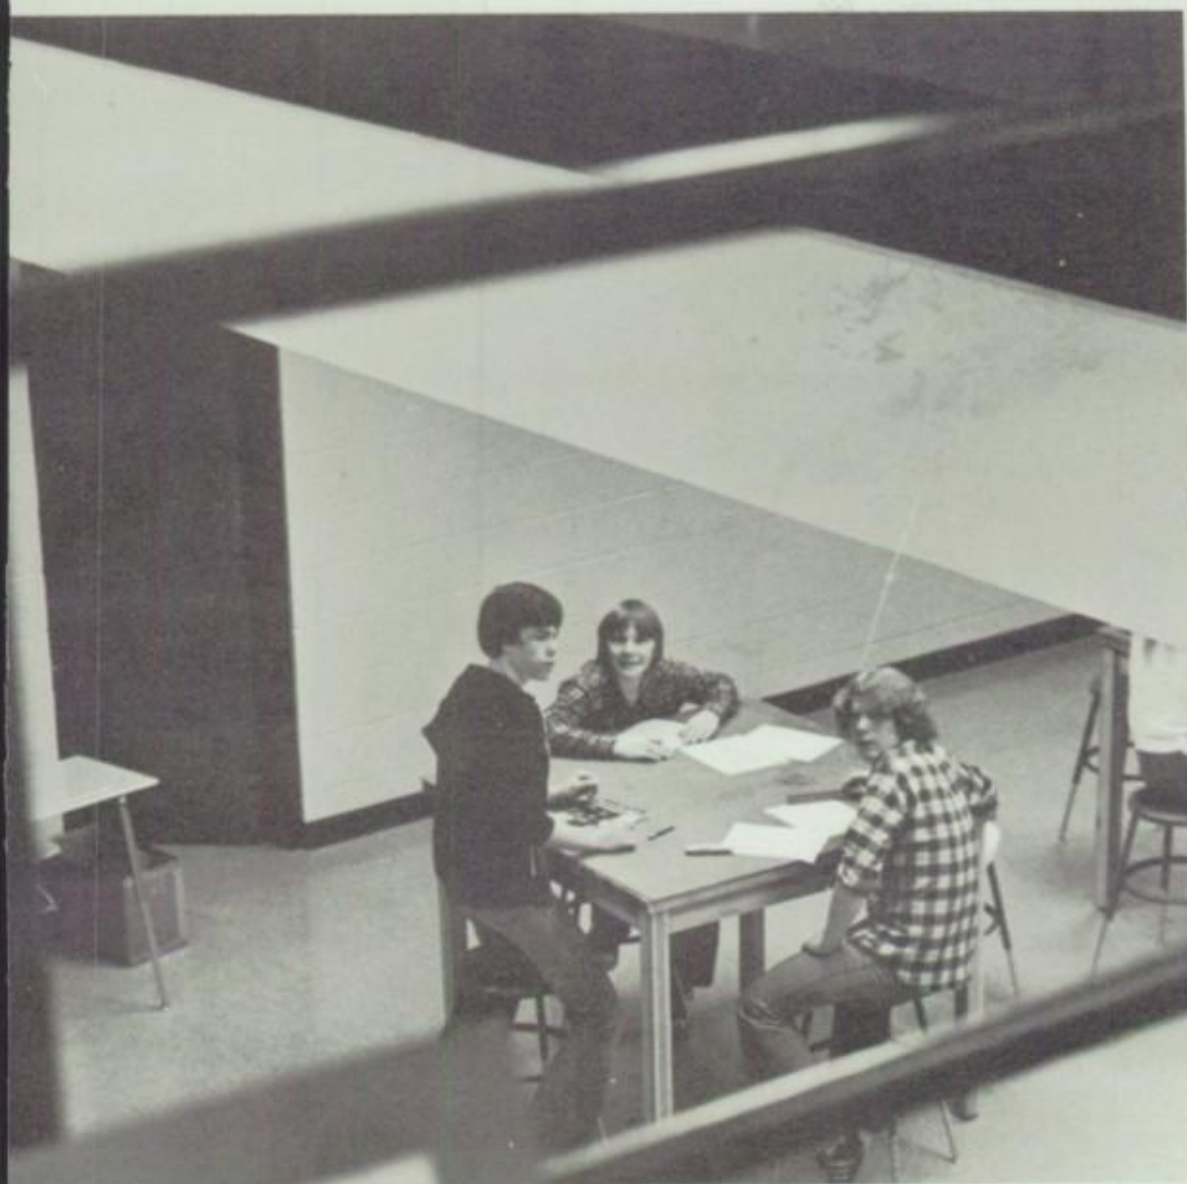

Fine arts are sometimes a forgotten aspect of Mississinewa. Unless you are on the Fine Arts program you aren't required to take any music or other fine arts courses. These courses include band, stage band, art of all kinds, and choirs of different sorts.

## *Fine arts*

Something that everyone has to take in his freshmen year is Physical Education (gym). This year the program has changed since it has come into the hands of Mr. Ron Bocken. It now even includes an advanced course that concentrates on special interest.

## Snow and coal halt activity

Blizzard is a word not unfamiliar to the Hoosier state and its surrounding neighbors. Winds in excess of sixty miles an hour as well as snow pile ups of over twenty feet threatened residents.

It took over a week to clear main roads and many secondary roads remained snow covered until the spring thaw.

School was out for four days while tired city workers attempted to get the community moving once again.

School recessed for quite a few days this year not only because of the snow but also because of the

Harsh cold, high snow, and diminishing supplies of power all combined for a short year.

# Convocations

Convocations are always a welcome break to the academic world of MHS. This year we as students were entertained by a few bands—Sunshine Express, as well as Under New Management. An informative type convo was supplied by Indiana/Michigan on Nuclear energy. *Coca Cola* also sent a representative to tell us about the history of radio.

Programs are usually paid with the revenue received from the candy machines. So as long as you continue to buy candy you'll have convocations.

# People

New classrooms, new playing fields, new equipment—none of it matters without the people to back them up. MHS has over seventy people working on its high school staff alone and close to one-thousand students using the facilities to their advantage.

This section takes a look at the administrative staff, school board, the graduating class of two-hundred and twenty nine students, and the remaining student body, as well as the teaching portion of the system and our foreign exchange students.

From Maija with love

*I have really enjoyed  
Being one of you.*

Maija Lepisto came to us from Finland, and has spent the year here taking in the American way of life. Maija wrote this letter for Mississinewa to remember her by:

*To all Mississinewa Students:*

*My name is Maija Lepisto. I'm the exchange student from Finland. Finland is a little country in the northern Europe. The Winter is the same as here, very cold and a lot of snow.*

*I'm staying with the Sheetz family, that I like a lot. Dee and Rob are attending MHS.*

*MHS is a very nice school. My school in Finland, Hervannan Lukio, is very modern but small, only 200 students. In my school, there is no school activities like Drama Club, Spanish Club, etc. One can be interested in all this kind of things, but has possibility to do so beyond the school time. There is no study halls in Finnish schools and that's why we have a lot of homework every day.*

*I like the Mississinewa basketball games—the students get the spirit. I have never experienced anything like that, I'm an ice-hockey fan at home and to my opinion, the games are very exciting. I hope your basketball team will do better in the future.*

*The kind of football that is played here in the U.S. is very different from soccer, that is played. So I didn't exactly enjoy the football games except the cheerleaders! There are no cheerleaders in Finland, I hadn't seen them ever before until my first pep session. Man, it was something.*

*I like very much the Mississinewa students and teachers. I'd like to thank you all for being very helpful and nice. I have really enjoyed being one of you.*

Job? *What's* a job?  
*Everybody* seems to be in  
the market for  
employment, but  
employment can be  
hard to find. College  
cost, pocket money,  
living expenses, or just something to do all  
top the list of why students want jobs.

*After* looking through this section, you  
may get an idea of where to apply. Many of  
these firms will be seeking Summer help.  
But the competition may be fierce, so be  
ready for the Summer job rush as  
thousands of high school students  
run from business to business  
answering the same familiar  
questions on each application in their  
effort to find financial happiness.

## Education ... our greatest CHALLENGE ...

There is no challenge to our modern society and no opportunity greater than educating our youth.

The old adage that says, "True intelligence is the power to adapt," has never held more meaning.

We have had and will continue to have a knowledge explosion. Four times as much is known today as was known in 1935.

U. S. Department of Labor studies point out that an individual's asset of experience increasingly will carry less weight than

his level of education. Many occupations of the future are not now even in existence.

The only sound educational target for such a future is to plan for these occupations which do not yet exist. Students must be able to learn how to learn and to apply themselves to new conditions as they arise.

This is no vocational assignment alone. Our nation needs intellectual as well as material growth. Our nation needs citizens as much as workers.

*Owens-Illinois*

*is but one of the hundreds of American business organizations concerned by this challenge and actively engaged in specific ways and means to meet it.*

### The Value of a Smile

A smile costs nothing, but gives much. It reaches those who receive without making poorer those who give. It takes but a moment, but the memory sometimes lasts a lifetime. A smile creates happiness in the home, fosters goodwill in business, and is the countersign of friendship. It brings rest to the weary, cheer to the discouraged, and is nature's antidote for trouble. Yet, it cannot be bought, begged, or borrowed or stolen, for it is of no value to anyone until it is given away. Some people are too tired to give you a smile. Give them one of yours, as none needs a smile so much as he who has no more to give.

# Special thanks to these Pow Wow supporters

Parts and Trucks  
1231 E. Main  
Gas City  
674-6995

The Mississinewa High School POW WOW would like to extend its most sincere thanks to those seldom recognized few that are indispensable to the publication of this yearbook.

Of the over 1500 pictures found inside the cover, Reid's Studios of Muncie developed and printed over 1250. Marion's own Chronical-Tribune also supplied several.

Dick Kennard of Newsfoto Yearbooks is also to be thanked for much assistance in the publication of the POW WOW.

Finally all those staff members at the high school who so graciously allowed their classes to be interrupted for a picture or some such thing should receive a grateful acknowledgement of their understanding, especially Mr. Dave Hudelson who sponsors the yearbook.

This year's POW WOW contains some interesting features which include the student index located on page 174 as well as 8 pages of full color in the front section. The divider pages are printed in 24 pt. type to draw your attention to their content. The endsheets are designed to be autographed.

The cost of the book came to over \$8000 of which the 678 who purchased them only paid \$7.00 each. The balance was picked up by local businesses in the form of advertising.

The whole project was put together in private homes by a completely volunteer staff.

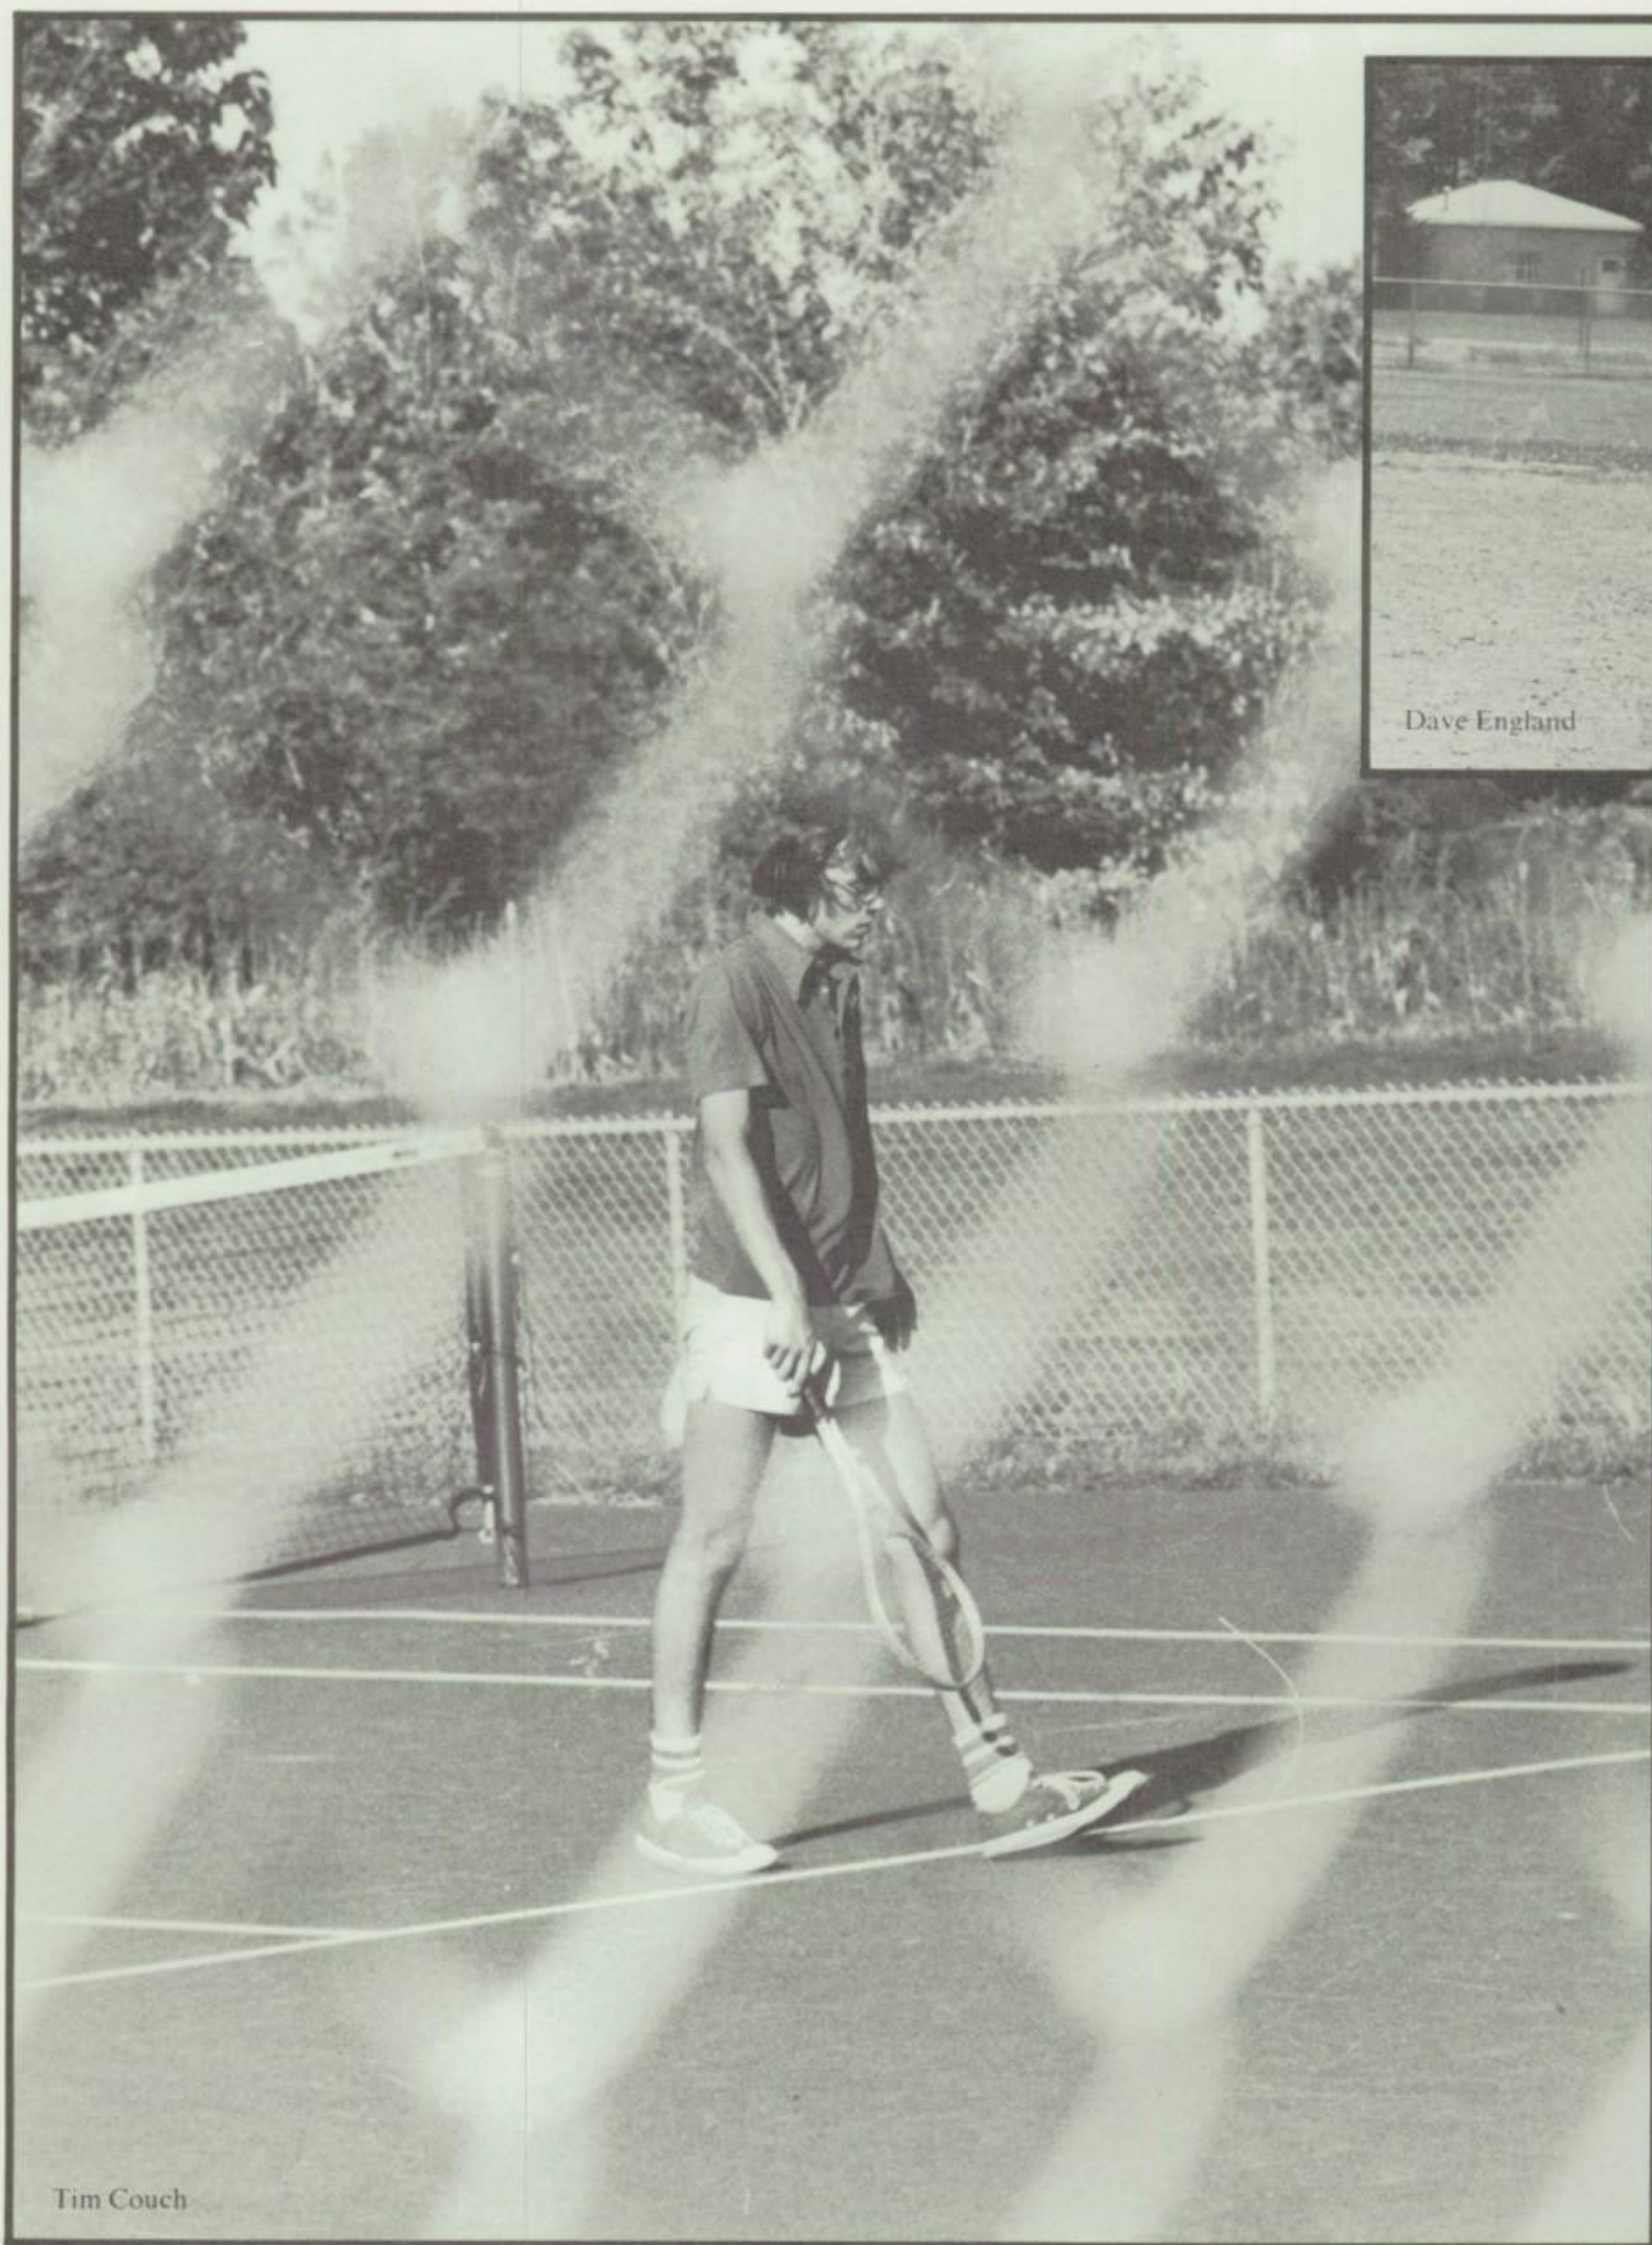

Thanks to all once again.

## The End

Finally the year ends. Mountains of snow, darkened halls, and

cold lunches are reduced to mere memory.

Geometry theorems, chemistry equations, and memorized French can all be forgotten for a while. School can be put totally out of mind.

Days at the lake, jobs, or college await the student as he crosses to the other side of the bridge.

*TPJR THANKS—the end*

Dear Karen,  
The trust you will  
always desire the Lord's perfect  
will for your life and be willing  
to obey. You are a sweet gal and we  
love you & your pretty smile  
Love & prayers,  
Guta

To a good  
friend who I've  
known for a long time

I wish you the best of  
luck in everything you try  
to do in life. Have fun while  
you're in school. Stay out of  
trouble and have fun. But if  
you can't do both at least have fun.

Love

Chris Thomas
